OUR VISION

To be a prestigious educational institution recognized for its academic excellence, research, and services, nurturing ethical and intellectual curiosity that contributes towards the development of a knowledge-based society in Pakistan.

OUR MISSION

Ziauddin University is committed to providing sustainable solutions for global challenges through education, research, and practice. Our university inspires leadership for all sectors of society. We carry out this mission through the open exchange of ideas in an ethical, interdependent, and diverse community of faculty, staff, students, alumni, and partners.

SIR DR. ZIAUDDIN AHMAD

M.A. (Cantab.) PhD (Göttingen)
D.Sc. C.I.E, M.L.A (Central)

Ex-Vice Chancellor and Rector of Aligarh Muslim University

Sir Dr. Ziauddin Ahmad was an eminent educationist, scholar and visionary of Subcontinent. He was born in 1873 in Meerut, India. At the age of 12, he passed high school with 1st Division and received Lang Medal along with government scholarship at M.A.O Collegiate Aligarh. In 1895 he secured 1st position in B.A and received Starchy Gold Medal at M.A.O College Aligarh. After completion of B.A in Mathematics Sir Dr. Ziauddin Ahmad was appointed as an Assistant Lecturer in MAO College. He attained M.A Degree from Calcutta University while securing 1st position and in 1901 he obtained his D.Sc. degree in Mathematics from the Allahabad University. For further studies he enrolled himself in Trinity College at Cambridge University. In 1904 he accomplished his goal and achieved Sir Isaac Newton Scholarship, he was the first Indian to receive this honor. Later in 1906, his thirst for knowledge took him to Göttingen University, Germany, where he completed his PhD in Mathematics.

Sir Dr. Ziauddin Ahmad served the Muslims of the subcontinent, by raising the educational standards of the Muslims and promoting literacy amongst the Muslim community. He also worked as an Assistant Secretary of Sir Syed Memorial Fund established for the purpose of founding a Muslim University. He was inspired by Sir Syed Ahmad Khan's approach towards modern education. After the demise of Sir Syed Ahmad Khan, Sir Dr. Ziauddin played a leading role in the revitalisation of Muslim education in the subcontinent, where he enlightened the Muslims of India with his liberal thoughts on the educational system. No single individual after Sir Syed did more in the cause of Muslim education than Sir Dr. Ziauddin Ahmad. He was appointed as Pro Vice-Chancellor of Aligarh Muslim University, and later as a Vice-Chancellor, in 1935.

Sir Dr. Ziauddin Ahmad died in London on December 23, 1947 and he was buried beside Sir Syed Ahmad Khan in the Aligarh Muslim University Mosque premises, thus fulfilling the pledge he made to Sir Syed Ahmad Khan to serve Aligarh for his entire life.

May his life ever inspire us in the path of knowledge, human service, virtue and steadfastness.

MESSAGE FROM THE **CHANCELLOR**

Dear Graduates,

It is with great pride that I extend my heartfelt congratulations to you on reaching this defining moment in your academic journey. Today represents both the culmination of your dedication and the beginning of a future filled with promise, responsibility, and new possibilities. Your experience at Ziauddin University reflects your commitment to learning, growth, and the pursuit of excellence—principles that will continue to shape your path forward.

At Ziauddin University, we are committed to developing individuals who contribute to a progressive, knowledge-based society through research, innovation, and service. As you step into the next phase of your lives, carry with you the understanding that education is a continuous journey, and that true achievement is measured by the value you add to your communities and the broader world.

I encourage you to act with integrity, think with clarity, and face challenges with determination. The future calls for individuals who are not only skilled but also responsible, adaptable, and driven to create meaningful change.

On behalf of the Ziauddin University community, I wish you continued success in all your endeavors. May you move forward with confidence, uphold our shared values, and make a lasting impact wherever your journey takes you.

DR. ASIM HUSSAIN
SITARA-E-IMTIAZ, NISHAN-E-IMTIAZ
CHANCELLOR, ZIAUDDIN UNIVERSITY

MESSAGE FROM THE **PRO-CHANCELLOR**

Heartfelt congratulations to the graduating Class of 2026! Today marks a celebration of your dedication, perseverance, and the countless hours you have invested in your education. It is a privilege to honor the accomplishments that have brought you to this remarkable milestone.

Your time at Ziauddin University has been a journey of growth, discovery, and transformation. Beyond mastering your chosen fields, you have developed the character, resilience, and vision necessary to contribute meaningfully to society. The education, skills, and experiences you have gained here equip you to lead with integrity, embrace challenges with courage, and make a lasting impact in your communities and the world.

I am confident that your talents, curiosity, and commitment will continue to drive success and positive change. Remain bold, stay inquisitive, and pursue your ambitions with determination and courage. Welcome to the proud alumni family of Ziauddin University, where your journey of learning and impact continues.

Onward, Class of 2026—your journey begins.

PROF. DR. NIDA HUSSAIN
PRO-CHANCELLOR, ZIAUDDIN UNIVERSITY

MESSAGE FROM THE **VICE-CHANCELLOR**

With great pride, I congratulate the graduating Class of 2026. Today marks a significant milestone as you move from academic achievements to the boundless opportunities ahead.

Ziauddin University is more than a place of learning—it reflects the vision of Dr. Sir Ziauddin Ahmad, who believed education is a force for progress. Carry forward not only the knowledge and skills you've gained but also the values of ethical leadership, academic excellence, and service to humanity.

In a world rapidly shaped by technology and innovation, use your expertise to tackle societal challenges, promote fairness, and contribute to meaningful progress. Remember, learning never ends—embrace growth, face challenges with resilience, and pursue excellence in all that you do.

The Ziauddin University community is proud to celebrate your accomplishments and will always stand with you as you create impact.

Congratulations, Class of 2026. May your journey ahead be purposeful, successful, and inspiring.

PROF. DR. MUHAMMAD ALI SHAIKH

VICE CHANCELLOR, ZIAUDDIN UNIVERSITY

MESSAGE FROM THE **REGISTRAR**

I extend my warmest congratulations to each member of the graduating Class of 2026 on reaching this important milestone in your academic journey. It is a privilege to witness your dedication and achievements.

Ziauddin University continues to grow and evolve, remaining committed to academic excellence and providing an environment where students can thrive. The progress we have seen this year, including increasing engagement and accomplishments across disciplines, reflects the shared dedication of our faculty, staff, and students to nurturing talent and potential.

Your hard work, perseverance, and commitment to learning have set high standards of excellence and reflect the quality of education that Ziauddin University is proud to offer. As you move forward, remember that the University remains a steadfast source of support, ready to celebrate your achievements and guide you through new challenges.

Congratulations once again to the Class of 2026. May your future be filled with success, purpose, and the drive to make a meaningful difference in the world.

DR. MIRZA AMIN UI HAQ

ACTING REGISTRAR, ZIAUDDIN UNIVERSITY

ZIAUDDIN UNIVERSITY

Sir Dr. Ziauddin Ahmad's vision was transformed into reality in the late 1950s when his daughter Dr. Aijaz Fatima and his son-in-law Dr. Tajammul Hussain started a small maternity home in Nazimabad. Over the years, this small maternity home took shape of a busy 80-bedded hospital that serves the densely populated area of Nazimabad.

In 1968, the family of Dr. Ziauddin Ahmad established Dr. Ziauddin Hospital Trust. In the same year, this trust established a second hospital in North Nazimabad, which is now a tertiary care hospital, catering to a large population. This hospital provides an opportunity for students to gain knowledge and skills in assessing and evaluating a wide range of problems in a tertiary care setting. The hospital is equipped with state-of-the-art equipment necessary to diagnose and manage problems effectively and efficiently.

In August 1994, through an Ordinance (XVII of 1994), the Government of Sindh granted the

Faculty of Health Sciences

Ziauddin Medical College
College of Dentistry
College of Public Health
College of Molecular Medicine

Faculty of Allied Health Sciences

College of Physical Therapy
College of Occupational Therapy
College of Clinical Psychology
College of Speech Language & Hearing Science
College of Podiatric Medicine
College of Medical Technology
College of Human Nutrition & Dietetics

Faculty of Liberal Arts & Human Sciences

College of Media Sciences
College of Languages Literature & Culture
College of Education

permission to establish Dr. Ziauddin Post Graduate Institute of Medical Sciences. By virtue of this Ordinance, the Institute could grant its own Postgraduate degrees and diplomas.

In October 1995, the Sindh Assembly passed an Act (VI of 1995) for the establishment of Ziauddin Medical University. At this time the University also established an association with the neighbouring community to set up a health centre, and entered into mutual partnership with the Karachi Municipal Catchments Population by providing healthcare services & educational support.

In December 2005, Ziauddin Medical University was given the Charter as Ziauddin University vide "The Ziauddin University" (Amendment) ACT 2003 dated December 13, 2005.

Presently, following faculties/colleges are successfully running under the umbrella of Ziauddin University:

Faculty of Veterinary and Animal Sciences

Faculty of Pharmacy and Pharmaceutical Sciences

College of Pharmacy
Department of Pharmacy Practice
Department of Pharmaceutics
Department of Pharmaceutical Chemistry
Department of Pharmacology
Department of Pharmacognosy
College of Pharmaceutical Sciences
Department of Cosmetics Sciences

Faculty of Nursing & Midwifery

College of Nursing and Midwifery (Sukkur Campus)

Faculty of Eastern Medicine & Natural Sciences

College of Eastern Medicine

Faculty of Law, Politics & Governance

Faculty of Engineering, Science, Technology & Management

College of Engineering and Technology
Department of Biomedical Engineering
Department of Electrical Engineering
Department of Civil Engineering
Department of Design

College of Computing and Software
Engineering

Department of Computer Science
Department of Information Technology
Department of Software Engineering

College of Management Sciences
Department of Business Administration
Department of Management Sciences
Department of Applied Sciences

■ INTRODUCTION

Ziauddin University has under its umbrella the Faculty of Health Sciences (FHS) which strives for the advancement of societal health and well-being.

Our commitment to excellence is demonstrated through our faculty members who are nationally and internationally recognized experts in their fields. In addition, students benefit from learning opportunities that go beyond the classroom to include experiential education in a range of settings from laboratories to community health centers.

We are known for implementing small group, problem-based education, with focus on self-directed, life-long learning, as well as the development of evidence-based medicine.

Integral to our mission is our extensive research programme. Our pioneering education advances and our excellence in world-class research have consistently placed Ziauddin University among the best medical universities in the region. We look to translate what we learn in our laboratories into healthcare practice and are committed to improve the health standards for our people.

ZIAUDDIN
MEDICAL
COLLEGE

■ VISION

To provide excellent educational opportunities of national and international standards in a conducive learning environment that serves to empower students to be world leaders in achieving global healthcare outcomes.

■ MISSION

To produce humane healthcare providers from diverse groups of people to meet future primary health care needs; having virtues of dignity and humanity with an appreciation of the social sciences. Special emphasis is placed on promoting critical reasoning, self-directed and lifelong learning with competencies to research, communicate and lead efficiently. Integrated, community-oriented, and evidence-based teaching will enable students to collaborate within the healthcare industry for better patient outcomes.

■ HISTORY

Ziauddin Medical College was founded in 1996 and is based in the University building, on Clifton campus, where it enjoys a range of exceptional facilities. All the degree programmes under the faculty are fully accredited by the Pakistan Medical and Dental Council (PMDC) and Higher Education Commission (HEC). These programmes provide a stimulating foundation for professional practice. Ziauddin Medical College and Dr. Ziauddin Hospital have three main campuses in different parts of the city in addition to several centers providing medical care & teaching:

- Dr. Ziauddin Hospital, North Nazimabad Site: a hospital that caters to a large population.
- Dr. Ziauddin Hospital, Clifton Site: a 180-bedded hospital, which also includes Ziauddin University building along with the University Administration offices.
- Dr. Ziauddin Hospital, Kemari Site: a 150-bedded hospital which provides

services mainly to the Karachi Dockyard Labour Board (KDLB) employees.

- Dr. Zareen Cancer Hospital, North Nazimabad.
- Dr. Ziauddin Memorial Maternal and Child Health Centre, Gole Market Nazimabad.

Learning campuses have been carefully selected for students, in order to develop the necessary knowledge, skills, and attitudes for providing quality and cost-effective care to all segments of the population.

Ziauddin Medical College is a member of the Association of American Medical Colleges and VSLO (Visiting Students Learning Opportunities). Through this membership Ziauddin Medical College is one of the only six medical colleges in Pakistan providing learning opportunities to its students at international level.

The graduates of Ziauddin Medical College are skilled practitioners, researchers and teachers with leadership potential for exercising knowledge. They acquire skills to look at health problems holistically and solve them through an innovative programme at individual, family and community levels, with emphasis on individual attention in small tutorial groups. To meet the challenges posed by exponential growth in information, students are motivated to become self-learners, using student-centred learning strategies such as Problem-Based Learning (PBL) and Case-Based Learning (CBL) that develop self-learning skills and team work. Community-Based Education (CBE) is the focal point of the programme; it also focuses on community development.

Graduates of Ziauddin Medical College successfully match the residency programme in international universities.

Research projects with relevance to national and community needs are also encouraged for developing scope of new knowledge.

■ PROGRAMMES OFFERED

- MBBS
- MPhil in Basic Health Sciences
- PhD in Basic Health Sciences
- MD in Clinical Subjects
- MS in Clinical Subjects
- Master in Healthcare Management
- Diploma in Forensic Medicine
- Clinical Diplomas
- Diploma leading to Master in Healthcare Management
- MPhil in Forensic Medicine & Toxicology
- PhD in Forensic Medicine & Toxicology
- Master of Health Professions Education (MHPE)

■ FACULTY

The Faculty of Health Sciences is one of the most established faculties in Ziauddin University. It has around 220 faculty members, including 23 PhD faculty members, who are involved in teaching and training of more than 700 undergraduates and over 200 postgraduate students in various disciplines of basic and Clinical Health Sciences. The faculty is actively engaged in conducting conferences / seminars, educational workshops and publishing their work in international and national journals.

■ FACILITIES

Ziauddin Medical College is well-equipped with state-of-the-art laboratories, which are upgraded regularly. Recently Anatomage, a modern state-of-the-art virtual 3D dissection table and three projection microscopes have been added to enhance anatomy learning.

There are three multi-disciplinary research laboratories with four PhD faculty members headed by Executive Director Research to facilitate students and faculty in their research endeavors.

The investigators are provided seed grants from the University and are facilitated to compete for national and international grants.

The College encourages and organises various workshops, seminars and conferences on medical education, research and health related issues. The MPhil/PhD students are given credits for attending and participating in such intellectual events. The standard of education in the medical college is maintained by a well-organised Quality Enhancement Cell, which conducts regular evaluations and makes recommendations for continuous quality improvement.

GOLD MEDALIST

Being recognized as the Best Graduate of Batch '26 is an honour I accept with immense gratitude and humility.

This journey has been far more than a pursuit of academic excellence. It tested resilience and taught patience. At Ziauddin University, I found more than a degree. I found friends that became family, purpose through the extra curricular work we did, and strength during the uncertainty of COVID-19. Those years taught me to adapt, to stay grounded, and to keep going.

Whatever I have achieved today is also a reflection of the people who stood behind me throughout this journey. To my grandmother, for her countless prayers; my parents, for their unwavering belief; my sister, for being my constant unpaid therapist; and my mentors and faculty, whose wisdom has shaped not just the doctor I am becoming, but the person I aspire to be. And to my friends, who made this journey lighter, stood by me through everything, and kept me going.

As we step into this profession, I hope we never lose sight of what truly defines a good doctor. In a world advancing rapidly with technology, knowledge alone will not set us apart. Empathy and compassion will. They turn treatment into healing and place us in positions of deep trust. Medicine is more than a profession. It is a privilege. It carries the weight of human lives, and it demands that we honour that responsibility with integrity, humility, and care.

To my peers and juniors, may you strive not just to succeed, but to make a difference that is felt long after you are gone. Stay grounded, stay humble and never forget why you started.

Gautam A. Dawani signing out - still learning, still growing, and still not trusting my own handwriting on prescriptions.

COLLEGE OF
DENTISTRY

■ VISION

To be recognized as a leading dental institution known nationally and internationally for providing academic excellence of the highest professional standards to enable dental graduates to be the leaders in delivering quality oral healthcare services.

■ MISSION

To develop dental health professionals from diverse groups of people as leaders, possessing virtues of dignity and humanity, with clinical excellence, to meet the primary oral health care needs. The emphasis is placed on promoting critical reasoning, self-directed and lifelong learning competencies to research, communicate, and lead efficiently. Community-oriented, evidence-based, and innovative technology-enhanced teaching enables students to be ethically and socially accountable in treating patients and addressing the challenges of the dental healthcare industry.

■ HISTORY

Ziauddin College of Dentistry was established in the year 2009 and offers a four-years degree programme leading to Bachelor of Dental Surgery (BDS). We recognise the challenges met by students once they enter into professional lives. Therefore, we empower them with different ways of absorbing information and taking responsibility of their own learning using student-centered learning strategies such as Problem-Based Learning (PBL) and Case-Based Learning (CBL). The teaching strategies for the dental students have been designed to promote adult learning, self-reliance and critical thinking in addition to theoretical knowledge. It is important that the students have a significant exposure to the curative, preventive and rehabilitative facets of oral and general health care. Ziauddin College of Dentistry promotes research projects at both undergraduate and postgraduate levels. It also offers

postgraduate programmes in Basic Dental Sciences and Clinical Sciences.

CURRENT PROGRAMMES

- BDS
- MPHIL
 - Oral Biology
 - Oral Pathology
- MDS
 - Oral & Maxillofacial Surgery
 - Operative Dentistry
 - Periodontology
 - Oral Pathology
- FCPS:
 - Oral and Maxillofacial Surgery
 - Operative Dentistry

■ FACULTY

The clinical dental training is supported by a well-equipped outpatient department (OPD). Six different departments cater to oral health needs of patients. Oral Diagnosis/Medicine, Operative Dentistry along with Paedodontics cater child oral & dental needs, Oral & Maxillofacial Surgery, Orthodontics, Prosthodontics and Periodontology. A wide range of treatments starting from preventive dentistry and oral health promotion to full mouth rehabilitation is provided and practiced at highly subsidized rates under the supervision of specialist doctors. For the first two pre-clinical years the college has a state-of-the-art Dental Materials Laboratory, Pre-Prosthetic laboratory, Phantom head laboratory, Oral biology laboratory and Dental VR Simulation Lab to supplement didactic learning. Well-equipped OPDs and Laboratories with highly qualified and experienced faculty form an ideal environment for professional development.

The College of Dentistry recently acquired 3D Virtual Dental Simulators, which are the first virtual haptic dental simulators in Pakistan and in the region. Using latest technologies of haptic and virtual reality, this simulator brings improvements in student

skills training as well as in student's assessment. It helps in simulation-based student training and allows the candidates to be perfectly trained prior to actual clinical practice on the patients.

■ COMMUNITY SERVICES

College of Dentistry is actively involved in the provision of community services via their school outreach programmes in which departmental faculty along with students visit low to middle-income schools. The objective is to disseminate oral health education along with oral screening. The college is also involved in delivering preventive dental services at the Primary health care center Gulshan-e-Sikandarabad, the nearest catchment area

with around five to six hundred thousand of the population belonging to the low-income group. The college has placed one dental surgeon and one hygienist at the preventive dental clinic, PHC.

College of Dentistry provides training for students in the diagnosis and management of oral conditions by promoting oral health through organized community efforts. The department strives to educate the public through student group activities and awareness programmes with the goal of preventing and controlling dental diseases such as; oral cancer, oral manifestations associated with systemic diseases and involving special children's needs on a community-wide basis.

GOLD MEDALIST

Standing here today as the recipient of the Gold Medal for the Class of 2026 fills me with immense gratitude and humility. My journey through the Bachelor of Dental Surgery program at Ziauddin University has been far more than an academic pursuit—it has been a deeply personal and transformative experience shaped by passion, perseverance, and purpose.

From the very beginning, dentistry was not just a career choice for me, but a calling. The ability to restore confidence through a smile, to relieve pain, and to make a tangible difference in people's lives is what drew me to this field. Over the past four years, that initial passion has only grown stronger with every lecture attended, every patient treated, and every challenge overcome.

However, this achievement is not mine alone. It belongs, above all, to my parents. Their unwavering belief in me, their countless sacrifices, and their constant encouragement have been the foundation of everything I have accomplished today. In moments of doubt and exhaustion, it was their faith that carried me forward. No words can truly express the depth of my gratitude for their love and support—they are the true pillars behind this success.

I am equally thankful to my mentors and professors, whose guidance, patience, and dedication have shaped not only my academic journey but also my character as a future healthcare professional. Their commitment to excellence has inspired me to strive higher every single day.

This journey has not been easy. It demanded long hours, resilience, and a relentless pursuit of growth. But every challenge reinforced my determination and deepened my love for dentistry.

As I move forward from this milestone, I carry with me not just this honor, but a responsibility—to serve with compassion, to uphold the highest standards of care, and to continue learning and evolving in this noble profession.

This gold medal is not just a symbol of achievement; it is a reminder of where I started, who supported me, and why I chose this path.

COLLEGE OF
PUBLIC HEALTH

■ VISION

A world where every community enjoys equitable health and the opportunity to thrive.

■ MISSION

To educate and empower future public health leaders with the knowledge, skills, and ethical foundation to advance population health equity and well-being in local and global communities.

■ INTRODUCTION

Ziauddin College of Public Health is dedicated to advancing public health and shaping the future of population well-being. We equip students with the knowledge, skills, and passion to tackle global health challenges through education, research, and community engagement.

As health concerns grow worldwide, the demand for skilled public health professionals has never been greater. Our multidisciplinary approach integrates epidemiology, biostatistics, health policy, environmental health, and health promotion, preparing students to address complex health issues from multiple perspectives.

Our renowned faculty—including scholars, practitioners, and researchers—provide mentorship and guidance, enabling students to engage in cutting-edge research, community projects, and global collaborations. We foster an inclusive learning environment that values diversity and cultural competence, equipping graduates to address health disparities effectively.

To bridge theory and practice, we have established strong partnerships with public health agencies, non-profits, healthcare systems, and governmental bodies, offering students hands-on experience through internships and fieldwork.

With a commitment to excellence, innovation, and social responsibility, Ziauddin College of Public Health aspires to be a global leader in public health education, producing graduates with the critical thinking, leadership, and problem-solving skills to drive meaningful change in their communities.

■ PROGRAMMES OFFERED

KARACHI CAMPUS

- POST GRADUATE DIPLOMA IN PUBLIC HEALTH
- MASTER OF SCIENCE IN PUBLIC HEALTH(MSPH)

SUKKUR CAMPUS

- BACHELORS IN PUBLIC HEALTH(BSPH)
- MASTER OF SCIENCE IN PUBLIC HEALTH(MSPH)

■ FACULTY

The faculty of college of public health are distinguished scholars and seasoned public health practitioners. They bring a powerful blend of cutting-edge research expertise and front-line field experience into the classroom. As dedicated mentors, they ensure students gain not only theoretical knowledge but also the practical skills and professional networks essential for impactful careers.

The background features a dense, repeating pattern of small, stylized portraits of people's faces, rendered in a light, muted green color. In the top-left corner, there is a solid green triangle that points towards the center of the page.

**COLLEGE OF
MOLECULAR
MEDICINE**

■ VISION

To advance world-class molecular genetic research in medicine with translational impact, addressing clinical needs and striving for both local and global recognition while providing high-quality healthcare benefits.

■ MISSION

To develop a deep insight into the molecular genetic mechanisms of human health and disease with innovative techniques that translate into effective tools for the diagnosis, treatment and prevention of diseases at par with international standards. We aspire to create a transformative impact by encouraging medical scientists to delve into evidence-based medicine for critical health challenges and translate innovations and discoveries into optimal healthcare.

■ INTRODUCTION

Ziauddin College of Molecular Medicine (ZCMM) stands as a trailblazer in Pakistan, pioneering advancements in the study of diseases at the molecular and genetic levels with strong research perspective. The college offers a comprehensive array of programmes, including BS, MPhil and PhD degrees. Using advanced technologies, the college researches the molecular foundations of diseases and develops novel treatments.

The focus is to translate fundamental research findings into clinical and translational applications, ultimately aiming to enhance patient care. Beyond training young minds, ZCMM is committed to providing advanced education to clinicians, offering a unique molecular perspective on disease. By bridging the gap between physicians and scientists, the college fosters collaboration and strengthens the healthcare system's essential pillars for optimal services.

Through this interdisciplinary approach, ZCMM promotes synergistic partnerships to propel transformative advancements in medical research and practice. Graduates emerge with a profound understanding of disease mechanisms at the molecular level, equipped with extensive hands-on training in basic and clinical research methodologies. They are prepared to play pivotal roles in developing novel therapies and driving medical innovation on a global scale.

In a World where healthcare demands continue to escalate alongside rapid scientific and technological progress, Ziauddin College of Molecular Medicine stands at the forefront of basic, translational, and clinical research. The college is dedicated to harnessing the latest advances in molecular biology to revolutionise clinical medicine and advance healthcare technology.

■ PROGRAMMES OFFERED

- BACHELORS OF SCIENCE IN MOLECULAR MEDICINE
- MASTER OF PHILOSOPHY (MPhil) IN MOLECULAR MEDICINE
- DOCTOR OF PHILOSOPHY (PhD) IN MOLECULAR MEDICINE

■ FACULTY

The faculty of the College of Molecular Medicine are internationally recognized scientists driving discoveries at the frontier of genomics, molecular mechanisms of disease, and therapeutic innovation. As active researchers leading funded laboratories, they integrate breakthrough science directly into the curriculum, creating a dynamic, inquiry-based learning environment. From mentoring undergraduate research projects to guiding PhD candidates in pioneering dissertations, our faculty are dedicated to training the next generation of translational scientists who will bridge laboratory discovery to clinical application.

■ FACILITIES

RESEARCH LABORATORY

The Research Laboratories (MDRL 1 & MDRL 2) at Ziauddin University provide:

- Cell and molecular biology, genomic and proteomic facilities
- Services include training on all equipment, guidance on experimental design and technical assistance in all equipment operation
- Cell culture facility
- Imaging facility with high resolution microscopy
- Immunohistochemistry facility
- Nucleic acid extraction in Biosafety Level 2 cabinet
- Real Time PCR
- Bioinformatics and Computational Biology
- Microbial Genomics Lab

**FACULTY OF
ALLIED HEALTH
SCIENCES**

■ INTRODUCTION

The Faculty of Allied Health Sciences at Ziauddin University is a distinguished establishment, committed to advancing healthcare through high-quality education and cutting-edge research. Previously part of the Faculty of Health Sciences, this faculty is dedicated to fostering excellence in applied science, focusing on areas that significantly improve human health. The knowledge gained within this faculty is crucial in combating life-threatening diseases and advancing healthcare standards.

As one of the top universities in Karachi, Ziauddin University has earned its reputation as one of the best health sciences institutes in Pakistan. The faculty is known for its innovative teaching methods, exceptional training programmes, and its focus on nurturing critical thinking, problem-solving, and practical skills among students. Our graduates are prepared to take leadership roles in healthcare, research, and clinical settings.

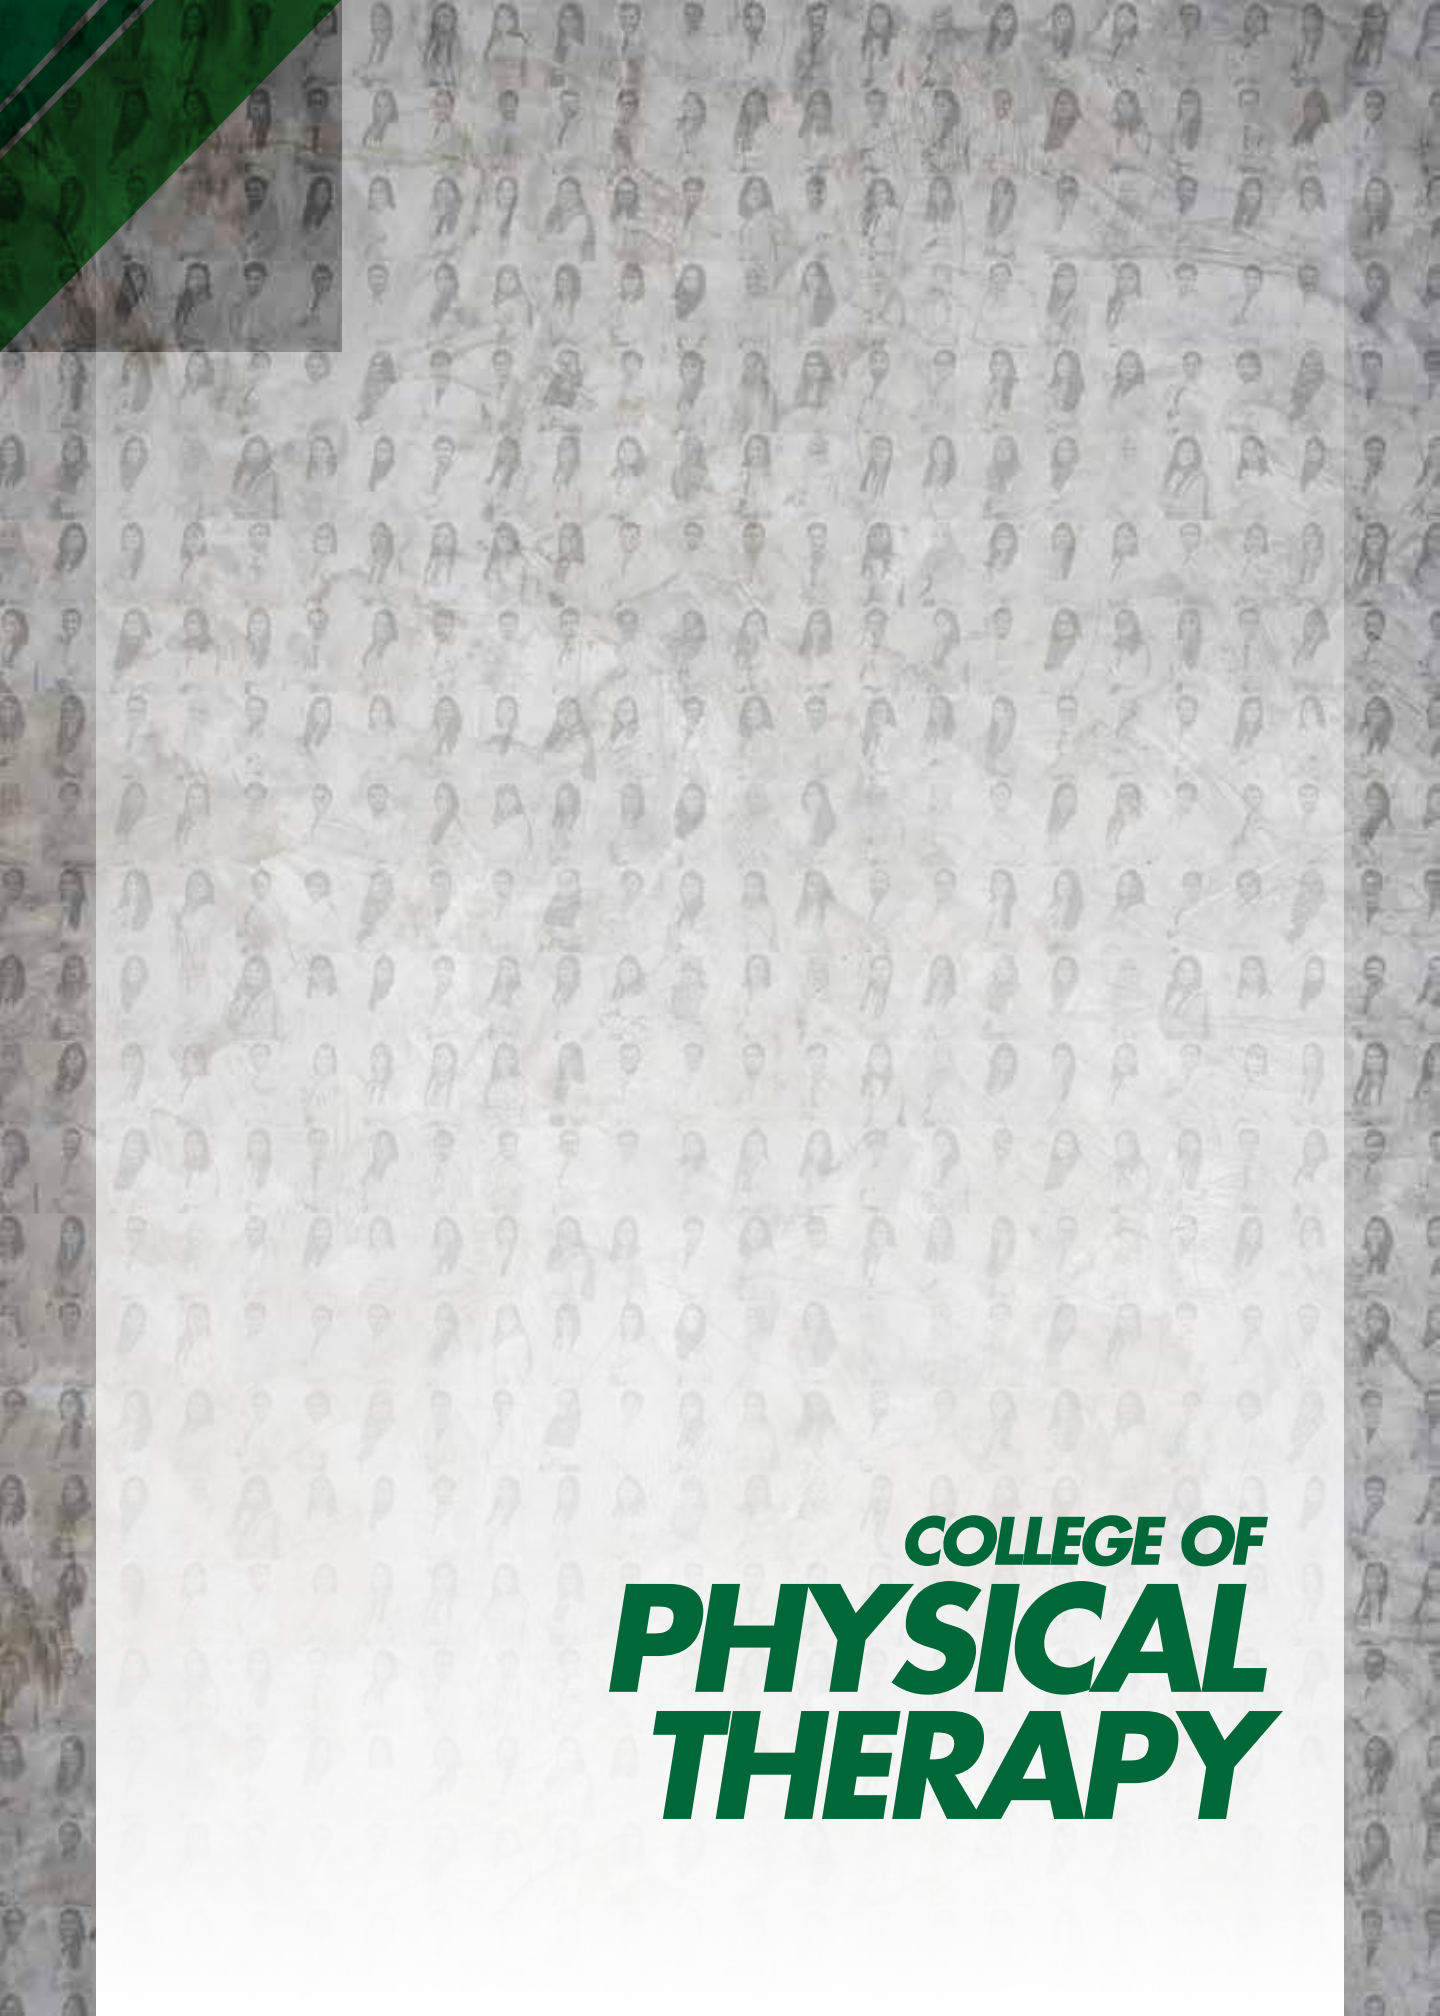

The Faculty of Allied Health Sciences encompasses several specialised colleges, offering a variety of degrees and programmes. These colleges are recognised for their rigorous academic programmes and their role in shaping future leaders in healthcare. Through comprehensive coursework, practical exposure, and advanced research initiatives, our graduates are equipped to make a tangible impact in the healthcare sector.

■ VISION

Bestowing eminence at Allied Health Sciences in education, research, services, and leadership.

■ MISSION

To attain global standards of competency framework for academics, research and services through student centered approach with integrity in healthcare system, community and contribute in sustainable development goals.

COLLEGE OF
PHYSICAL
THERAPY

■ INTRODUCTION

Ziauddin University laid the foundation of the 'College of Physical Therapy' (ZCPT) in 1999, initially offering a four-year BS in Physical Therapy with the aim of providing quality education and producing clinically competent physical therapists who meet international standards. With consistent development in the field, Ziauddin College of Physical Therapy, under the umbrella of the Faculty of Allied Health Sciences, offers five-year graduate (DPT), postgraduate programmes of Master of Philosophy in Physical Therapy, Master of Philosophy in Rehabilitation Sciences and doctoral-level programmes in Physical Therapy. To meet the demands of the time, ZCPT also provides degree upgrade programmes and various diplomas for continuous professional development. The proud alumni of ZCPT, actively contributing to major healthcare facilities globally, serve as a testament to the quality education and training provided by the university.

■ VISION

A global hub for academic, clinical work and research in the field of physical therapy with integrated rehabilitation.

Mission

Ziauddin College of Physical Therapy is committed to produce competent physical therapists by providing knowledge and skill-based education, also inculcating the element of research with the intent to improve patient care.

■ PROGRAMMES OFFERED:

- Doctor of Philosophy in Physical Therapy - PhD
- Master of Philosophy in Physical Therapy-MPhil
- Master of Philosophy in Rehabilitation Sciences-MPhil
- Doctor of Physical Therapy – DPT
- Diploma in Fitness Training - DFT

■ CURRICULUM:

ZCPT follows the approved curriculum for all programmes aligned by Higher Education Commission (HEC). It is designed to provide students with a comprehensive understanding, clinical skills, and evidence-based practice essential for patient management.

■ WELL-EQUIPPED LAB:

The college has fully equipped labs to meet the HEC-approved curriculum requirements. The facilities provided in these laboratories provide opportunities for students to gain hands-on experience and integrate theoretical knowledge into their practical approaches.

■ CLINICAL TRAINING:

Clinical training is an essential component of the curriculum; both nationally and internationally qualified teaching faculty promote better understanding through diligent supervision, instilling clinical reasoning and fine skills in students and preparing them to serve humanity with excellence. Attached to Dr. Ziauddin Hospital, a state-of-the-art tertiary care hospital in the region, ZCPT provides ample opportunities for its students to learn and train themselves as competent clinicians. Students have the privilege of completing their clinical rotations and gaining practical experience in an esteemed hospital.

■ CLINICAL COLLABORATION:

ZCPT started their clinical collaboration with other major healthcare institutions like Dow University Hospital-Ojha, Sindh Institute of Physical Medicine and Rehabilitation (SIPM&R), Abbasi Shaheed Hospital, National Institute of Child Health (NICH), National Institute of Cardio-Vascular Diseases (NICVD), Sindh Govt. Hospital, Tabbha Heart Institute, Al-Umeed Rehabilitation Association (AURA), Rabia Moon Trust, Association for Children with

Emotional Learning Problems (ACELP), Department of Empowerment of Persons with Disabilities (DEPD), and Sindh Institute of Child Health and Neonatology (SICHN).

■ LEARNING RESOURCES:

ZCPT established the "Learning Resource Centre," a hub of printed books, journals, periodicals, and e-books, e-journals to fulfil the need and quest of its students to learn more and explore more.

■ FINANCIAL ASSISTANCE:

The University provides this facility to a number of candidates based on merit and individual needs. Each case is treated on an individual basis and decisions are made by the financial aid committee.

■ HOUSE JOB:

After graduation, the university allows its students to complete a one-year house job at a hospital, as recommended by HEC.

With a focus on academic excellence and clinical proficiency, our DPT programme prepares students to become skilled and compassionate physical therapists capable of meeting the evolving healthcare needs of society.

GOLD MEDALIST

I began my journey at Ziauddin University five years ago with a heart full of dreams and prayers. I had a vision, but I never truly imagined I would reach this height. Back then, if you had told me that I would be standing where I am today, I'm not sure I would have believed you. There were countless nights when I felt like the goal was out of reach and the path ahead seemed steep, but I kept my faith and remained focused on the work at hand.

This Gold Medal is not just a reflection of academic success but also a symbol of perseverance, countless hours of studying till late night, my own efforts and the mercy of Allah (SWT). There were moments of doubt where I wondered if the hard work would truly pay off, but through every challenge, I found strength in my devotion and the unwavering support of my family and mentors.

Being part of the Ziauddin North campus has been a transformative experience. The faculty didn't just teach me the syllabus, they taught me the value of resilience. Today, as I hold this honor, I am reminded that with sincere effort and faith, the impossible becomes possible.

I am deeply grateful to Ziauddin College of Physical therapy, Ziauddin University for providing the environment that allowed me to grow into the professional I am today. A big thank you to the Ziauddin Faculty, without them, this wouldn't have been possible. As I step into the future, I carry these lessons close to my heart, ready to serve and succeed.

COLLEGE OF
OCCUPATIONAL
THERAPY

■ INTRODUCTION

At Ziauddin College of Occupational Therapy (ZCOT), our philosophy is rooted in the belief that occupational therapy plays a pivotal role in promoting health, well-being, and quality of life for individuals and communities. We are dedicated to preparing future occupational therapists who are not only skilled practitioners but also compassionate, ethical, and innovative leaders in the healthcare sector. Our approach combines a student-centred environment, cutting-edge resources, and a strong commitment to global competency standards to cultivate professionals capable of addressing the complex and diverse needs of today's society.

The five-year undergraduate Doctor of Occupational Therapy programme at ZCOT is the only affiliated programme of the World Federation of Occupational Therapists (WFOT) in Asia. Our programme emphasises a holistic, client-centred approach for practising, as we understand that well-being is multifaceted—spanning physical, emotional, cognitive, and social dimensions—and our graduates are equipped to provide comprehensive care that addresses these diverse needs through evidence-based practices and interprofessional collaboration.

■ VISION

Leading institute of Occupational Therapy in academics, services, and research for the well-being of society.

■ MISSION

To be an innovator in Occupational Therapy through a student-centred academic environment offering diversity, continuous learning, etiquette, resources, and interprofessional collaboration to integrate in health care delivery with teamwork for influential care.

■ DOCTOR OF OCCUPATIONAL THERAPY DOT

The Doctor of Occupational Therapy (DOT) programme was established in 2018 by the Department of Occupational Therapy at Ziauddin College of Rehabilitation Sciences (ZCRS), Karachi. In December 2023, it evolved into the College of Occupational Therapy (ZCOT) under the Faculty of Allied Health Sciences, becoming a dedicated institution focused solely on occupational therapy education. The programme is affiliated with the World Federation of Occupational Therapists (WFOT), ensuring its curriculum meets international standards for professional education and practice.

This strategic development addresses the growing demand for occupational therapists in Pakistan by reducing gaps in education, clinical practice, and integration within rehabilitation teams across the care continuum.

Globally, over 2.4 billion people—around one-third of the population—live with health conditions that would benefit from rehabilitation. Occupational therapy is essential in enhancing functional independence and occupational performance, yet the shortage of trained professionals remains a pressing concern. ZCOT offers both undergraduate and one-year professional deficiency programmes, including the Doctor of Occupational Therapy and Accelerated Doctor of Occupational Therapy. The curriculum blends theoretical knowledge with hands-on clinical training across diverse settings, preparing students to work with children, adults, and the elderly.

Our highly qualified faculty is dedicated to cultivating professional excellence and empowering students with the competencies to assess, diagnose, and treat a wide range of conditions effectively.

■ ACCELERATED DOCTOR OF OCCUPATIONAL THERAPY ADOT

The Accelerated Doctor of Occupational Therapy (ADOT) is a one-year, semester-based degree programme tailored for practising occupational therapists who hold a professional qualification and seek to advance their academic standing and clinical expertise. This programme is specifically designed for professionals who wish to transition to a doctoral level of education without stepping away from their current roles in healthcare, education, or community practice.

Through a rigorous and flexible academic

structure, the ADOT equips therapists with advanced knowledge in evidence-based practice, clinical reasoning, leadership, advocacy, and research. It empowers them to take on expanded roles within multidisciplinary teams, pursue academic and administrative positions, and contribute to the growth and recognition of occupational therapy at both national and international levels.

The programme supports the continuing professional development of occupational therapists while reinforcing their ability to respond to the dynamic needs of diverse populations across rehabilitation and healthcare settings.

GOLD MEDALIST

My journey at Ziauddin College of Occupational Therapy, from 2021 to 2025, has been one of the most transformative and meaningful experiences of my life. As a student of the Doctor of Occupational Therapy program, I entered with curiosity and hope, and I leave with knowledge, confidence, and a deep sense of purpose.

I am truly grateful to Ziauddin University for providing me with an environment that nurtured my academic, professional, and personal growth. The clinical exposure, hands-on experiences, and diverse networking opportunities have played a significant role in shaping me into a more confident and capable individual. These experiences have not only strengthened my professional skills but have also helped me grow as a person.

I would especially like to express my heartfelt gratitude to the faculty of Ziauddin College of Occupational Therapy for their dedication and continuous support. The mentorship throughout this journey has been exceptional and truly impactful.

A special thanks to Ma'am Neelam for her guidance and encouragement. Thank you, Ma'am Neelam Zehra, for your support and mentorship.

I deeply appreciate all the efforts that Ziauddin University has invested in my learning and development. This institution has given me more than just a degree; it has given me direction, confidence, and lifelong learning.

COLLEGE OF
CLINICAL
PSYCHOLOGY

■ INTRODUCTION

The College of Clinical Psychology is providing quality education and clinical services. Our mission is to create an inclusive community dedicated to innovation and excellence in teaching and research, as well as public service and engagement through hard work, integrity, freedom, and discovery. Psychology is the scientific study of the mind and behavior, according to the American Psychological Association. Psychology is a multifaceted discipline and includes many sub-fields of study, such as human development, sports, health, clinical, social behavior, and cognitive processes.

■ VISION:

The College of Clinical Psychology is rooted in Ziauddin University's strong commitment to becoming the most distinguished provider of quality education and clinical services. It envisions applying scientific knowledge of human behavior to benefit individuals and society.

■ MISSION:

The College of Clinical Psychology is committed to equipping students with rigorous academic knowledge, evidence-based clinical practice, and critical thinking abilities through education, research, and training in the psychological arena. The College prepares the next generation of ethical, knowledgeable, and innovative professionals using models emphasizing scientific rigor and experiential learning in conjunction with the academic programs.

■ PROGRAMS OFFERED:

In the discipline of psychology, the College offers a variety of programs:

- BS Psychology (Clinical Psychology)
- MS Psychology

■ FACILITIES/RESOURCES:

1. Classrooms & Lecture Halls:
 - o Spacious classrooms equipped with modern technology for lectures, presentations, and discussions. We have 4 classrooms and 1 boardroom in the campus.
2. Laboratories:
 - o Psychology labs for practical training on psychological assessments, diagnostics, and therapeutic techniques. We have one Lab available within the campus.
3. Counseling/therapy Rooms:
 - o Designed to simulate real-world therapy sessions, these rooms provide a space for practicing counseling skills and techniques in a controlled, professional environment. We have 2 child clinic rooms, 1 adult clinic room and play area.
4. Library Resources (E- Library):
 - o Online databases for research purposes.
5. Practical Training:
 - o Opportunities for internships or placements in clinical settings like hospitals, clinics, rehabilitation centers, and mental health organizations to gain hands-on experience.
 - o Exposure to working with real clients under supervision.
6. Research Facilities:
 - o Research labs with specialized equipment for psychological testing, surveys, or behavioral experiments.
 - o Access to research assistants and supervisors to guide undergraduate research projects.
7. Psychological Assessment Tools:
 - o Access to a wide range of psychometric tools and assessment instruments used to evaluate personality, intelligence, mental disorders, etc.
8. Specialized Workshops and Seminars:
 - o Resources for attending workshops on the latest psychological theories, practices, and technologies.
 - o Seminars conducted by guest speakers or

visiting experts in the field.

9. Supervised Clinical Training:

- o Direct interaction with clients (under supervision) to gain experience in diagnosis and treatment of various psychological

conditions.

- o Applied settings such as community centers, schools, or private practices for training in real-world applications.

GOLD MEDALIST

Over the past four years, I was taught that clinical psychology is a helping profession—but in many ways, it ended up helping me more than anything else. It challenged me to confront my fears, sit with discomfort, and truly understand my own vulnerabilities. In doing so, it gave me the tools to grow—not just as a future clinician, but as a person. I learned to reflect, to unlearn, and to rebuild myself with greater resilience and self-awareness.

Being a student at the College of Clinical Psychology, Ziauddin University, has been an experience that goes far beyond academics. It has been a journey of transformation, where knowledge was not only taught but deeply experienced. The rigorous training, combined with constant supervision and support, allowed me to develop both competence and confidence. Our teachers were not just instructors—they were mentors who modelled empathy, integrity, and professionalism in ways that left a lasting impact on all of us.

As a gold medalist, I feel incredibly honoured and grateful. However, this achievement is not mine alone. It is a reflection of the countless hours of guidance from my teachers, the unwavering encouragement of my peers, and the shared struggles that made every success meaningful. Each challenge, each late night, and each moment of doubt contributed to this milestone, making it all the more special.

Over these four years, I found much more than an alma mater—I found a family. The friendships I built here are rooted in understanding, shared purpose, and mutual growth. Together, we supported each other through the highs and lows, celebrating victories and learning from setbacks.

As I move forward, I carry with me not only the knowledge and skills I have gained, but also the values this institution has instilled in me—compassion, ethical responsibility, and a commitment to lifelong learning. I leave with a deep sense of gratitude, pride, and purpose, hopeful to give back to the field that has given me so much.

**COLLEGE OF
MEDICAL
TECHNOLOGY**

■ INTRODUCTION

Established in 1998, Ziauddin College of Medical Technology has carved a niche for itself in the field of medical technology; we began our journey by offering a two-year Bachelor of Science (B. Sc) programme in Medical Technology. Since then, ZCMT has been on a continuous path of evolution, constantly upgrading its programmes and offering new programmes that are able to meet the scientific and professional requirements of healthcare systems.

Our commitment to excellence extends beyond curriculum. We use innovative and engaging teaching practices that impart competence in experimental techniques. Our assessments are standardized and ensure that students are capacitated to become functional in healthcare teams.

At ZCMT we understand the aspirations of our students who dream of pursuing international licensing or postgraduate studies. We provide comprehensive support to help them achieve their goals. Our programmes are weighted by the higher education commission of Pakistan

■ VISION

ZCMT aspires to become center of excellence for interdisciplinary education, research, and continuous professional development which contributes to healthcare and community services.

■ MISSION

College of Medical Technology endeavors to impart holistic theoretical education, hands-on clinical skills, and supervised clinical practice for crafting future technologists, scientists, researchers, educators and leaders. These international standard graduates will strengthen interprofessional collaboration in healthcare and community.

■ PROGRAMMES OFFERED

- Ph.D. MEDICAL TECHNOLOGY
- MS MEDICAL TECHNOLOGY

● BS MEDICAL TECHNOLOGY (4 YEARS)

Following are the clinical specialties of the Medical Technology programme:

- Cardiac Perfusion
- Cardiovascular Sciences
- Clinical Laboratory Sciences
- Dental Hygiene and Technology
- Neurosciences
- Nuclear Medicine
- Radiation Therapy
- Radiological Imaging

■ FACILITIES

● Located in the heart of North Nazimabad, the Ziauddin College of Medical Technology boasts state-of-the-art facilities designed to foster a dynamic learning environment.

● Spacious, well-furnished classrooms are equipped with multimedia facilities, enhancing the teaching-learning process. The air-conditioned setting provides a comfortable space for students to focus, despite the city's harsh climate.

● Our training labs, replicated from hospital and clinical settings, offer hands-on experience with hi-tech machinery and instruments. This prepares students for real-world scenarios, ensuring they're confident and skilled when interacting with patients.

● The Learning Resource Center is a hub of knowledge, featuring:

- A comprehensive library with an extensive book collection
- A plastic museum showcasing 4D models
- Computing facilities providing access to e-books, e-journals, and academic articles

● Additionally, students can utilize the main library at Ziauddin Hospital, North Nazimabad, for extended learning opportunities beyond university hours.

● As a privileged institution, we offer students rotational postings within Ziauddin Hospitals' departments, aligning with curriculum objectives. This hands-on experience, both during and after semesters, exempts students from traditional internship requirements, providing a seamless transition into their professional careers."

GOLD MEDALIST

My journey at College of Medical Technology Ziauddin University has been a profound chapter of growth, both personally and professionally. Pursuing a degree in Medical Technology here provided me with far more than a technical education; it offered a front-row seat to the future of healthcare.

The curriculum is exceptionally robust, bridging the gap between complex scientific theory and the high-stakes reality of clinical diagnostics. I am immensely grateful to our faculty—their passion for the field and dedication to our success transformed every lecture and practical session into a masterclass in precision. Within the university's supportive learning environment, I felt empowered for future challenges.

As I step into the professional world, I do so with the confidence that the foundation laid by Ziauddin University has prepared me for a lifetime of future growth and contribution to the medical community.

COLLEGE OF
SPEECH,
LANGUAGE
& HEARING
SCIENCES

■ INTRODUCTION

Established in 2006 through a collaborative initiative between the Speech and Hearing Association of Pakistan (SHAP) and Ziauddin University (ZU), the College of Speech Language and Hearing Sciences (CSLHS) is the first institution of its kind in Pakistan dedicated to the education and clinical training of professionals in speech, language, hearing, communication, swallowing, and voice disorders. Since its inception in Karachi, CSLHS has evolved into a distinguished academic and clinical centre with a strong national footprint.

The College has continually expanded and strengthened its academic portfolio and currently offers undergraduate and postgraduate programmes in Audiology and Speech-Language Pathology. In addition, CSLHS provides specialized diploma programmes designed to equip health professionals, educators, and support personnel with practical skills to work effectively with typically developing children, individuals with special needs, and diverse clinical populations. Collaborative diploma programmes developed in partnership with READ and ACELP further reflect the College's commitment to multidisciplinary and inclusive education.

CSLHS prepares students to become competent, ethical, and forward-thinking professionals in Audiology and Speech-Language Pathology. Academic instruction is closely integrated with extensive clinical training to ensure a strong balance between theoretical foundations and hands-on practice. Under close supervision, student Speech-Language Therapists and Audiologists conduct comprehensive evaluations, assessments, and evidence-based interventions for children and adults with speech, language, hearing, feeding, voice, and swallowing disorders.

To ensure alignment with global standards and emerging practices, the College regularly organizes seminars, workshops, and

conferences facilitated by national and international experts from the USA, Canada, UK, UAE, Australia, and India. CSLHS also takes pride in developing computer-based assessment and therapy tools that are culturally and linguistically appropriate for the local population.

The CSLHS clinic, renovated in 2023, comprises 16 state-of-the-art clinical spaces designed for individual and group therapy. Facilities include a dedicated voice and swallowing laboratory, psychology clinic, physical and occupational therapy clinic, and a fully equipped audiology clinic. Remedial classes, along with parent and teacher training workshops, are regularly conducted to promote collaborative, family-centred, and interactive learning.

Students are actively encouraged to engage in community development initiatives, particularly those serving underprivileged populations. To date, CSLHS has trained 20 batches of professionals, with over 150 competent graduates currently providing services to more than 3,000 patients each week. Beyond direct clinical service delivery, the College has played a pivotal role in raising awareness about communication disorders and advancing the profession across Pakistan.

CSLHS has established strong collaborative links with leading organizations, including Indus Hospital and Health Network (IHNN), Karachi Down Syndrome Program (KDSP), Parents Voice Association – Ujala, Association of Children with Emotional and Learning Problems (ACELP), Institute of Holistic Rehabilitation and Inclusion (IHRI), and The Learning Tree School (TLT), further strengthening its impact in education, clinical practice, and community outreach.

■ VISION

Lead the cutting-edge educational programs and evidence-based clinical services, fostering interdisciplinary scientific innovation,

research, advocacy, and entrepreneurship, in multilingual societies.

MISSION

As a pioneering institute, CSLHS is committed to cutting-edge academics, clinical observations, and procedures within the institute and through our partners, fostering research, innovation, and leadership, in an ethical, and interdependent student-faculty team.

PROGRAMMES OFFERED

- BS Audiology and Speech Language Therapy
- MS Speech Language Pathology
- Diploma in Learning Disabilities (in collaboration with READ)
- Diploma in Multidisciplinary Rehabilitation of Children with Special Needs (in collaboration with ACELP)

FACULTY

CSLHS is led by Ms. Amina Siddiqui, supported by a dedicated and experienced core faculty:

- Dr. Tahmeena Tabish – Vice Principal; Assistant Professor
- Dr. Shahid Ali – Assistant Professor; Director Clinical Affairs
- Dr. Asif Ramzani – Assistant Professor
- Ms. Fatima Yousuf – Assistant Professor, Patron - Student Affairs
- Mr. Hafeez Punjani – Assistant Professor
- Dr. Kehkashan Kanwal – Assistant Professor
- Ms. Samina Masood Haider – Assistant Professor
- Ms. Anusha Abdul Samad – Senior Lecturer
- Ms. Ayesha Siddiqa – Senior Lecturer
- Ms. Pashmina Imran – Senior Lecturer
- Ms. Sonia Shah – Senior Lecturer, DED

coordinator

- Ms. Zahra Ibrahim – Senior Lecturer
- Ms. Zainab Sadiq – Senior Lecturer

- Mr. Ahmer
- Ms. Saima
- Mr. Shehroz
- Ms. Nazish
- Ms. Urooj

GOLD MEDALIST

I would like to start by thanking my Lord. Without Him, I am nothing, and without Him, there is no existence or life. All praise is due to Allah, the Lord of all worlds. Whatever I have achieved is only because of His will, and because of His trust, I was able to overcome every hurdle on this journey.

I strongly feel that no achievement is ever individual. Whatever I have achieved stands on the support, prayers, and encouragement of the people around me. The friendships I made and the people who mentored me influenced me greatly. They taught me the importance of empathy, gratitude, and how to cherish the smallest moments that matter the most.

For me, this journey was never about having a high GPA. It has been about growth, the kind that happens to you in the most subtle ways. My time at Ziauddin has been an experience that has taken me out of my comfort zone and has helped me realize that I have strengths that I never knew I possessed. In the end, the person I became matters far more than any number on a transcript.

Personally, a thing that I have reflected on throughout my university experience was my decision to wear the niqab. There were times when I wondered if wearing the niqab would perhaps become a hindrance or limitation in an academic or professional environment. However, Alhamdulillah, this has never come to pass. Rather, my experience at Ziauddin has taught me that growth, confidence, and capability are measured by commitment and character. The atmosphere and support system that was provided to me at this institution enabled me to flourish while remaining true to myself and my values, and for this, I will always be grateful.

I am thankful to my family, friends, and teachers for continuously encouraging me and believing in me. This path required hard work, dedication, and perseverance, but more than anything, it has taught me the value of sincerity in whatever I do.

As I continue to move forward, I take not only knowledge, but also values, relationships, and lessons that will help shape the person and professional I hope to become. If this journey has taught me anything, it is that success is not measured by where we stand alone, but by the people who stand beside us and the purpose we carry within us.

Alhamdulillah for everything that has been, and InshaAllah for everything that is yet to come.

**COLLEGE OF
HUMAN
NUTRITION
AND DIETETICS**

■ INTRODUCTION

The Department of Human Nutrition and Dietetics in Ziauddin University was established in the year of 2020 under the Faculty of Eastern Medicine and Natural Sciences. Now, it has grown and evolved to become a full-fledged college, proudly situated in the Faculty of Allied Health Sciences. The college aims to provide quality education in the undergraduate and post graduate programs and transform the students into internationally competent professionals. Currently, College of Human Nutrition and Dietetics in Ziauddin University is the only institute in Karachi which offers admissions of Ph.D. program in the discipline of Human Nutrition and Dietetics.

■ VISION

To Serve as a Center of Excellence (Institute) for Education and Research for Best Quality Human Nutrition Care in Pakistan and Low Middle Income Countries.

■ MISSION

To establish internationally comparable education programs in Human Nutrition and Dietetics, supported by research for evidence-based solutions. Collaborate with industry for nutrition-promoting products/services and engage stakeholders for projects promoting healthy lifestyles.

■ PROGRAMS OFFERED

- BS Human Nutrition and Dietetics
- MS Human Nutrition and Dietetics
- Ph.D. Human Nutrition and Dietetics

■ FACILITIES/RESOURCES

- Meal management Lab
- Nutrition Care process lab
- Library Physical and e-book facility
- Computer lab
- Sports facilities (Indoor)
- Collaborations with hospitals and public health organizations for internships and educational visits
- Common room

GOLD MEDALIST

Respected faculty members, distinguished guests, and fellow students,

My name is Amna Murtaza, a student of the Bachelor's program at the College of Human Nutrition and Dietetics, Ziauddin University. It is both an honor and a deeply humbling moment to be nominated for the Gold Medalist position.

Before I express my gratitude to my university, I must acknowledge the unwavering support of my parents. Their sacrifices, constant encouragement, and belief in my potential laid the foundation upon which every achievement of mine stands today. This milestone belongs to them as much as it belongs to me.

This recognition represents far more than academic performance; it reflects years of guidance, encouragement, and transformation made possible by an institution that nurtures excellence and integrity. The university's commitment to academic excellence, ethical standards, and professional development has played a pivotal role in shaping my intellectual growth.

Being a student of the College of Human Nutrition and Dietetics at Ziauddin University has been one of the most defining chapters of my life, and I am grateful to have chosen this path for myself. What began as an academic journey gradually became a path of personal growth, resilience, and discovery.

The faculty of the College of Human Nutrition and Dietetics deserves my deepest appreciation for their unwavering guidance, mentorship, kindness, and encouragement. Their dedication to teaching, research, and student development inspired me to strive for excellence and to approach my studies with sincerity and purpose. Their support was instrumental not only in my academic achievements but also in my personal growth and professional conduct. They taught me to think critically, act ethically, and approach nutrition and dietetics with compassion and scientific rigor.

As I approach the completion of my academic journey, I feel great pride and gratitude for the experiences and lessons that have served me as powerful motivation for my future aspirations of pursuing higher studies and advancing my career in clinical practice.

I am deeply grateful to Allah Subhanahu Wa Ta'ala for His countless blessings, to my family and friends for their unwavering support, and to my mentors for their invaluable guidance. This journey would not have been possible without the encouragement and efforts of my friends, through whom I discovered a profound sense of teamwork, perseverance, and collective strength.

As this chapter concludes, the memories and experiences gained will forever remain close to my heart as I move forward. I extend my best wishes for success to my peers and encourage our juniors to carry forward their journey with dedication and commitment. I take great pride in being a graduate of Ziauddin University, and I remain indebted to the faculty for believing in me and all my future accomplishments will reflect the strong foundation established here.

WITH DEEPEST RESPECT AND GRATITUDE,
AMNA MURTAZA

COLLEGE OF
PODIATRIC
MEDICINE

■ INTRODUCTION

Ziauddin College of Podiatric Medicine (ZCPM), established in 2021, is Pakistan's pioneering institution dedicated to education, research, and clinical excellence in foot and ankle healthcare. Ziauddin University is the only institution in Pakistan offering a five-year Doctor of Podiatric Medicine (DPM) degree under the Allied Health Professional Council, making it a unique hub for advancing podiatric medicine nationally. Established under the Faculty of Allied Health Sciences, ZCPM aims to produce highly competent podiatric professionals who meet both national and international standards. The College seamlessly integrates theoretical knowledge with hands-on clinical training, equipping students to effectively manage foot and lower limb disorders and significantly improve patient outcomes.

■ VISION

To produce competent and dedicated health care professionals committed to lead the field in Podiatric medical education through research, and community service efforts for better patient care outcome.

■ MISSION

Ziauddin College of Podiatric Medicine is committed to inspire and educate future podiatric medicine professionals, equipping them with the knowledge, skills, and compassion to excel in the field. We are committed to providing a comprehensive and innovative educational experience that fosters excellence, integrity, and professionalism in all aspects of podiatric medicine.

■ PROGRAMMES OFFERED

- Doctor of Podiatric Medicine (DPM) – 5 Years

■ CURRICULUM:

The Doctor of Podiatric Medicine (DPM) curriculum has been developed in collaboration with Internationally qualified Podiatric faculty and is fully aligned with

national requirements and internationally recognized standards as per Health and Care Professions Council (HCPC) standards.

■ WELL-EQUIPPED LAB:

ZCPM is equipped with specialized laboratories, including anatomage, anatomy museum, physiology, biomechanics, musculoskeletal and Podiatry Skills labs, designed to support practical training aligned with podiatric medicine curriculum.

■ CLINICAL TRAINING:

Clinical training is a core component of the DPM program. Structured clinical rotations at Ziauddin University Hospital and affiliated clinical sites provide students with supervised exposure to real-world podiatric practice. These rotations enhance clinical reasoning, patient management skills, and professional competence.

■ CLINICAL COLLABORATION:

The College maintains clinical collaborations with Ziauddin University Hospital and other affiliated healthcare institutions to ensure comprehensive clinical exposure and interdisciplinary learning, like Dow University Hospital-Ojha, Sindh Institute of Physical Medicine and Rehabilitation (SIPM&R), Shaheed Mohtarma Benazir Bhutto Institute of Trauma (SMBBIT), Dowites 78 Diabetic and wound care Civil Hospital, Jinnah Postgraduate Medical Center (JPMC) and Kutayana Memon Hospital (KMH).

■ LEARNING RESOURCES:

Students have access to a well-resourced library, including printed books, journals, periodicals, and e-resources, supporting academic learning and research activities.

■ FINANCIAL ASSISTANCE:

The University provides this facility to a limited number of candidates based on merit and individual needs. Each case is treated on an individual basis and decisions are made by the financial aid committee.

GOLD MEDALIST

"Do not go where the path may lead; go instead where there is no path and leave a trail."

Five years ago, when podiatry was still unfamiliar in Pakistan, we, under the umbrella of Ziauddin University, walked into this program as the first batch, carrying not just bags and books, but confusion, curiosity, and immense courage. There were no seniors to guide us, no past papers to rely on - just hope, Google, and occasionally panic.

As the first enrolment with Roll Number 001, I learned very quickly that being first means doing everything the hard way. From long academic nights to demanding clinical days and countless moments of self-doubt, every challenge shaped resilience and confidence. Together, our class grew not only as students, but as the foundation of a new healthcare discipline in our country. Within this journey, receiving the Gold Medal and being declared the Valedictorian of the first-ever graduating batch of podiatry feels, both surreal, and deeply humbling.

With profound gratitude, a heartfelt thanks to our mentors for nurturing us and Ziauddin University's vision that made this journey possible. To my family, whose unwavering support and prayers encouraged me. Even when I was explaining podiatry for the hundredth time to relatives, neighbours, and strangers alike, they never doubted the value of this path or my place in it. To my grandparents, I hope I have made you proud today, standing as the doctor you always hoped I would become. This honour belongs to you as much as it does to me. Being pioneers, we leave not just as graduates, but as the foundation for generations to come. I am truly grateful to have been present at the beginning of something greater than ourselves.

Thank you, Ziauddin, for trusting us with a discipline that had no precedent, and for believing that foot health deserves a future in this country. I carry this beginning forward with purpose and hope, striving to serve foot health in Pakistan and beyond. And with that, yours truly -001, officially signs off.

"The journey continues for many, but the beginning belongs to us".

**FACULTY OF
LIBERAL ARTS
& HUMAN
SCIENCES**

■ INTRODUCTION

The Ziauddin University Faculty of Liberal Arts and Human Sciences is rapidly establishing itself as one of the most prestigious institutions in the field of liberal arts. The faculty was established with the aim of equipping students in Pakistan with the communication skills necessary to succeed in a globalized world.

What sets the Faculty of Liberal Arts and Human Sciences apart from other programs is its focus on developing critical thinking, problem-solving skills, and communication skills to enable individuals to navigate the complexities of society. Our focus is on providing liberal arts education that prepares students to approach ideas from multiple angles and come up with innovative solutions. We offer a unique blend of theoretical knowledge and practical projects that polish critical thinking skills.

The Faculty of Liberal Arts and Human Sciences comprises several colleges, including the College of Media Sciences, College of Languages, Literature, and Culture, and College of Education. The Faculty aims to develop empowered individuals who are able to deal with the complexities of life and society using critical thinking, communication skills and a problem-solving approach. This area of studies has gained importance world over since it focuses on a broad knowledge of different fields of study that place emphasis on the evolution of media, communication, and arts.

We emphasize on producing individuals who are creative, imaginative, and thought leaders who possess the potential to make a difference in the world.

■ VISION

To develop empowered individuals who are able to deal with the complexities of life and society using critical thinking, communication skills, and a problem-solving approach.

■ MISSION

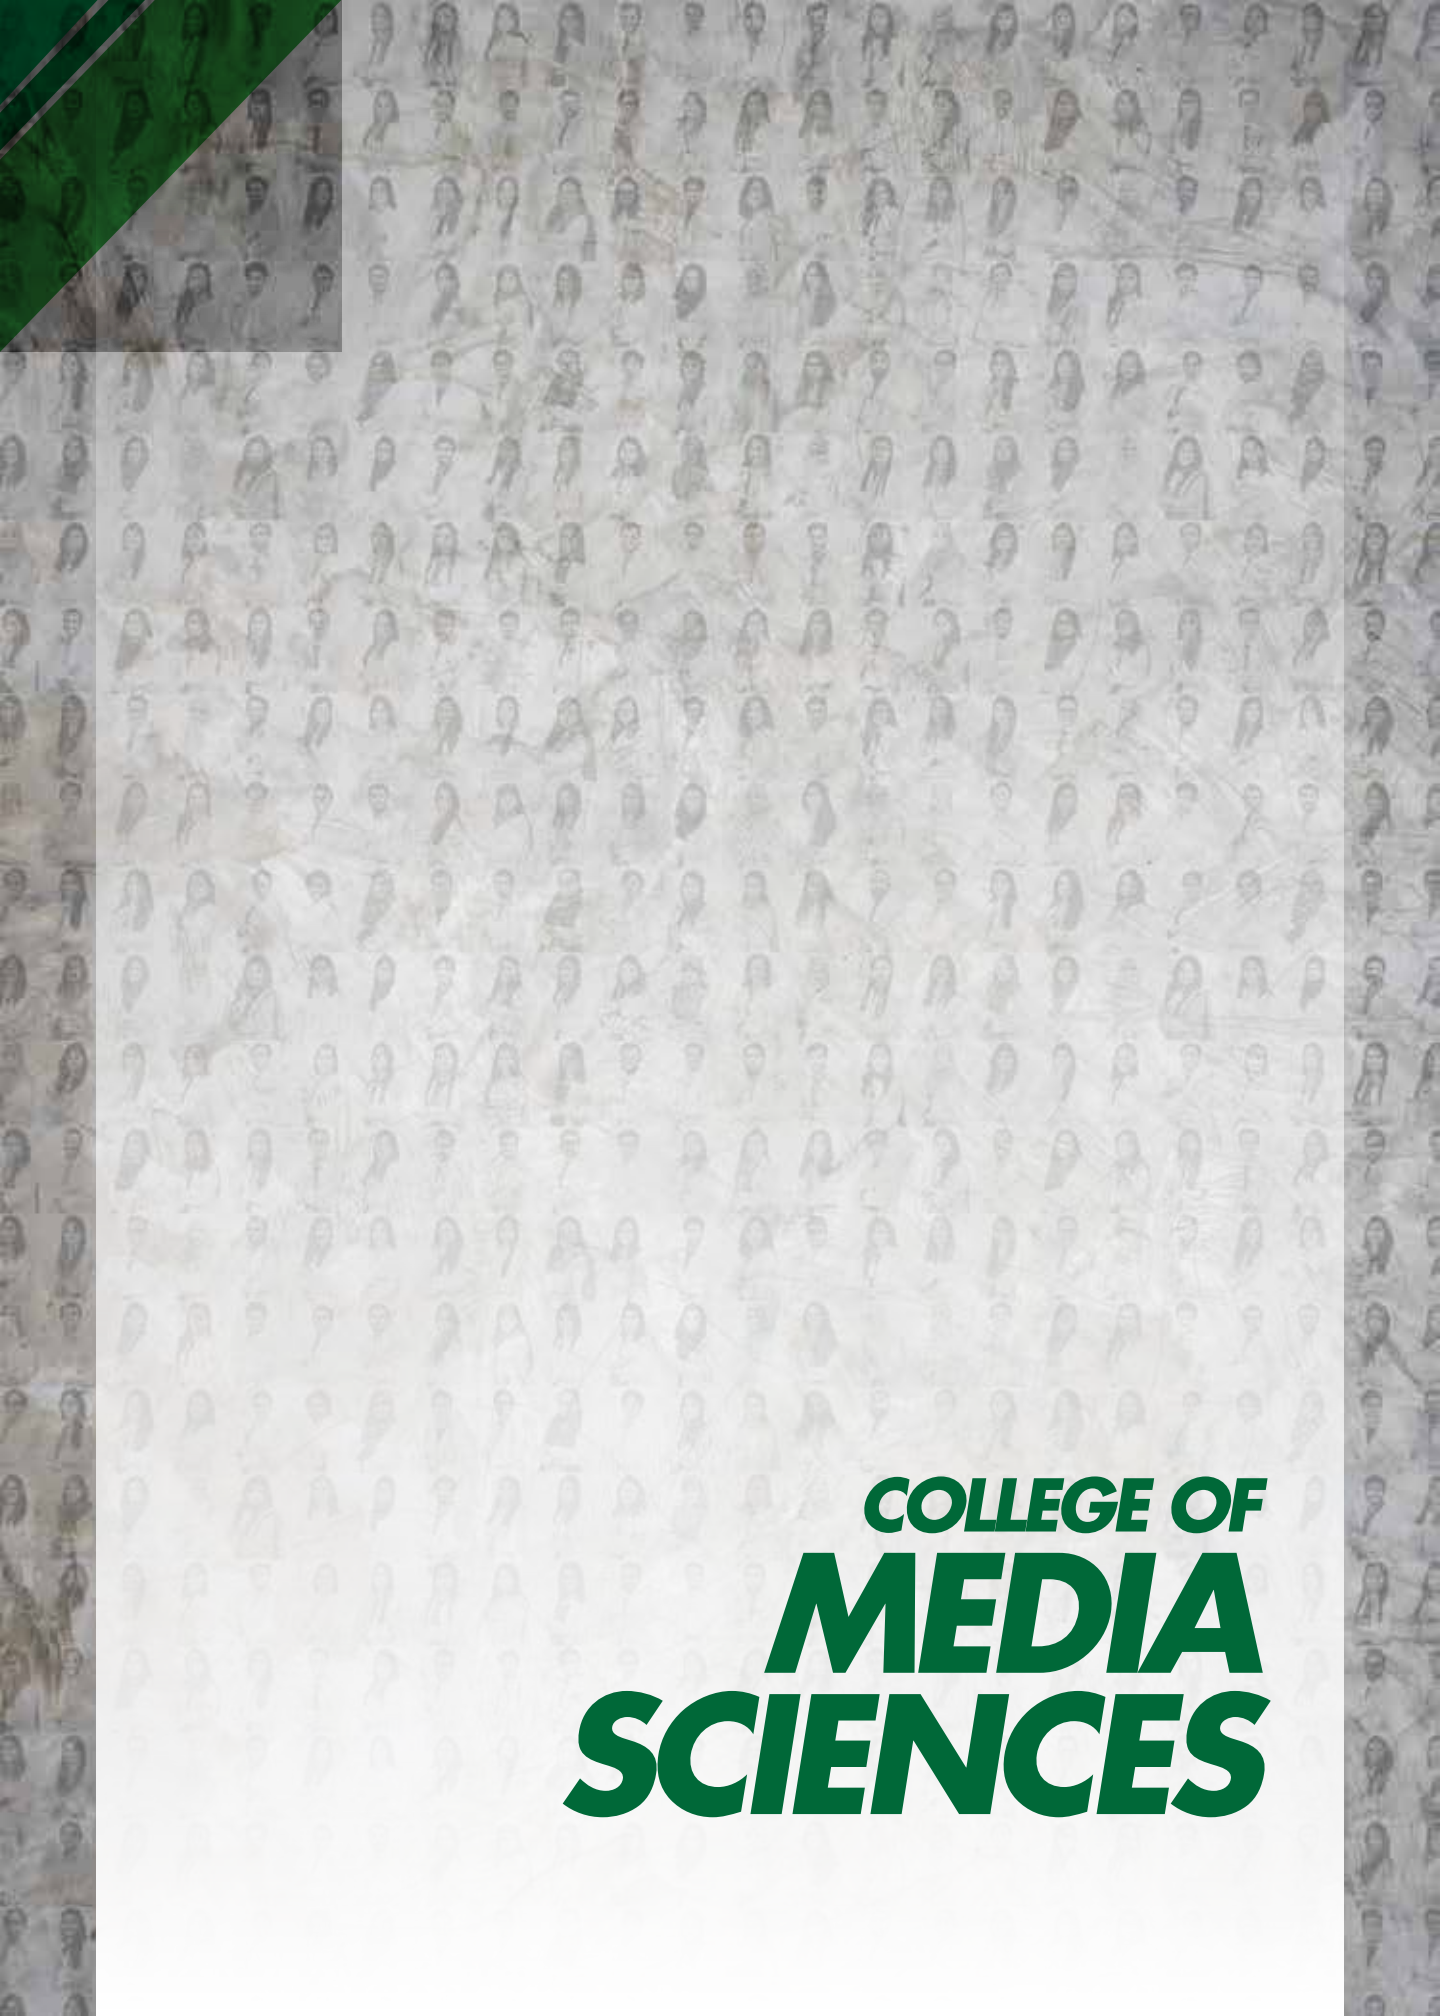

To provide students with a broad knowledge of the world to maximise their potential and engagement with human issues as citizens of a globalised and increasingly technological world.

The Faculty of Liberal Arts & Human Sciences offers various programmes for students to discover their full potential to fulfil their dreams as well as to strive for a better tomorrow, both for themselves and for future generations. The faculty includes three colleges:

- College of Languages, Literature & Culture
- College of Education
- College of Media Sciences

Overall, the faculty offers six undergraduate programmes: BS English, BS Social Change & Development, BS Education and Psychology, BS Communication & Media Sciences, BS Digital Media Marketing, and B.Ed. Honours (multiple pathways- 4 years, 2.5 years, 2 years, and 1.5 years).

Additionally, a postgraduate programme, MPhil in Education has recently been launched.

**COLLEGE OF
MEDIA
SCIENCES**

■ INTRODUCTION

The College of Media Sciences at Ziauddin University is an esteemed institution committed to developing the upcoming generations of media professionals. With our commitment to excellence in education, advanced facilities, and a vibrant learning environment, we offer a range of programs that equip students for success in the ever-evolving media landscape.

We have a team of experienced faculty members, many of whom work in the industry, ensuring our students gain real-world knowledge and skills that are highly valuable in today's media environment.

The College of Media Sciences offers two vibrant undergraduate programs: BS in Digital Media Marketing and BS in Communication & Media Sciences. These programs aim to provide students with a thorough understanding of media theories, effective communication strategies, digital marketing techniques, and practical skills necessary for success in the media industry.

To enhance the learning experience, our college provides state-of-the-art facilities that replicate real-world media environments. From multimedia labs equipped with cutting-edge software to studios for audio and video production, students have access to the tools they need to explore their creativity and develop their practical skills.

We believe in an interactive and engaging teaching methodology that goes beyond traditional classroom lectures. Our faculty members incorporate case studies, group projects, and hands-on experiences to ensure that students gain practical insights and develop critical thinking abilities. The learning environment encourages collaboration, creativity, and innovation, allowing students to thrive and unleash their full potential.

■ VISION

Groom students to become media professionals of international caliber who are futuristic in vision possessing leadership qualities.

■ MISSION

ZCOMS offers media education by providing state-of-the-art infrastructure to develop curiosity and the highest intellectual and professional growth for the advancement of the media industry and the development of a tolerant communicative ethical society through research, exploration, and experimentation.

The College strongly believes in social, economic, and ethnic diversity, and as such, aims to provide quality education to

students of all backgrounds. ZCOMS aims to develop the students' understanding and appreciation for the culturally diverse worlds that we live in, so they are able to reach their highest intellectual and human potential. Our undergraduate programmes, through a broad and balanced curriculum lays great emphasis on high-quality education and creative solutions leading to the professional, moral, intellectual, and social development of each individual.

■ PROGRAMMES OFFERED

BS Digital Media Marketing
BS Communication and Media Science

■ FACILITIES

CAMPUS RADIO, ZU FM 98.2

Campus radio ZU FM 98.2 provides students with a platform to reach out to the masses. ZCOMS students discover their talent here and become radio jockeys, producers, and editors for live and recorded shows. Students are engaged with the radio station as early as their first semester. Getting to know the operations of a radio station and developing content under faculty supervision are all part of this wonderful experience.

Film & Tv Production Facilities

ZCOMS has a fully functional state-of-the-art production facility equipped with spacious production studios, a control room, and an editing facility where students get to work on film, video, and photography projects following processes precisely as practiced in the professional world.

Sound & Audio Facilities

Any production without proper focus on sound is worthless. At ZCOMS, students are trained on professional audio equipment consisting of mixers, professional

microphones, digital audio interfaces, MIDI controllers, etc. They learn the skills of audio production and the art of sound design using these facilities.

East River

At East River, students gain firsthand working experience in digital communication and campaign development. East River is a digital ad agency that specializes in creating innovative digital content for specific business needs. It specializes in creating brand visibility with a unique blend of strategy, creativity, and technology

GOLD MEDALIST

Studying at ZCOMS was a truly memorable and enriching experience. The teaching faculty was amazing and had a strong grasp of their respective courses. While the academic journey was often challenging and time-consuming, it played a significant role in shaping my abilities and has made me capable of doing what I do today.

ZCOMS has nurtured my skills and expanded my knowledge, and I am grateful to have been part of such a learning environment. The courses, projects, and teaching approaches are thoughtfully designed in line with current trends, helping students develop broad and wide-ranging skills that extend beyond the classroom.

Looking back, I am genuinely happy to have chosen ZCOMS as my university, and I remain thankful for the experiences and growth it has provided me.

COLLEGE OF
EDUCATION

■ INTRODUCTION

College of Education is a part of the Faculty of Liberal Arts and Human Sciences of the Ziauddin University. Established in September 2019, the college offers HEC approved Bachelor in Education Degree programme as alternate pathways. The four years Degree programme draws knowledge from several other fields in social sciences like sociology, anthropology, psychology, economics and Languages. The goal is to prepare professionals who are competent in the science that studies human behaviour in educational situations during the learning process. This includes study of the psychological requirements of educational process, understanding the mechanisms of the learning process, motivations of behavior, mental processes, educational guidance, individual differences in schools and schooling, understand and appreciate individual and cultural diversity etc.

■ VISION

The vision of the Ziauddin College of Education is to harness and maximise human potential and capabilities in the field of education that can contribute to the development and betterment of society and the nation as a whole.

■ MISSION

The mission of the Ziauddin College of Education is two-fold:

- a) To excel in enhancing the scholarship of teaching and learning, thereby setting a national standard of academic excellence in education.
- b) To provide leadership in service and outreach initiatives by actively engaging schools to foster communities of practice for teachers and bolster school development programmes.

■ GOALS

Help to prepare teachers recognised for the quality and significance of their teaching, research, scholarship, service, outreach, and leadership.

Enhance the commitment of faculty, staff, and students to promoting diversity, social

justice, and democratic citizenship.

Provide leadership in the development of collaborative, professional relationships with schools, organisations, and other institutions focused on the improvement of education in schools, communities, and workplace settings.

Enhance the effective and efficient management of the college and its programmes.

Build a community of practice for life-long learning

**COLLEGE OF
LANGUAGES,
LITERATURE
AND CULTURE**

■ INTRODUCTION

Welcome to the College of Languages, Literature & Culture at Ziauddin University! We are a prestigious institution dedicated to providing high-quality education in languages, literature, and culture. Our college offers a diverse range of programmes designed to enhance linguistic proficiency, critical thinking, and cultural understanding.

From mastering languages and exploring the depths of literature to understanding the intersection of various disciplines such as sociology, psychology, gender studies, history, anthropology and education, our curriculum is designed to broaden your horizons and develop your intellectual capabilities.

At the College of Languages, Literature & Culture, we strive to create an enriching learning environment. Our experienced faculty members employ innovative teaching methods that promote interactive learning, critical analysis, and creative expression. We encourage students to engage in academic discussions, seminars, and workshops, fostering intellectual growth and collaborative learning. We provide state-of-the-art facilities to support your educational journey. Our well-stocked libraries, and multimedia resources offer you the tools and resources necessary to excel in your studies. The college also organises various educational activities such as literary events, cultural festivals, and guest lectures to enhance your learning experience and expose you to diverse perspectives.

Upon graduating from the College of Languages, Literature & Culture, you will be equipped with valuable skills that open doors to rewarding career opportunities. You can pursue careers in fields such as education, translation and interpretation, journalism, research, social change and development, cultural organisations, and more. Our programmes prepare you to become effective communicators, critical thinkers, and agents of positive change in society.

■ VISION

The College of Languages, Literature and Culture aims to develop the next generation of citizens for an extremely

fragmented yet interrelated world with an appreciation and understanding of diversity in languages, literature and cultures within a broad humanistic context.

■ MISSION

To engage in teaching, research and service in languages, literature and culture to develop graduates as critical thinkers with excellent language and communication skills and an appreciation of diversity in cultures and people for promoting tolerance and peace in a globalised world.

■ PROGRAMMES OFFERED

BS English

BS Social Change Development

■ FACILITIES

CLLC Literary Club

The Literary Club of CLLC aims to foster a love of reading and writing in both its students and society. The club provides a platform for the students of Ziauddin University to showcase their talents and freely share their diverse and valuable insights about art and literature at a time of cultural disintegration through its engaging activities. We strongly believe in reviving what is lost, rethinking what is missing, and rediscovering what is vanishing from our everyday lives.

Lecture Halls

Lecture halls in CLLC are equipped with advanced technology, high-definition projectors, interactive whiteboards, and state-of-the-art sound systems. Seamless integration of multimedia enhances students learning experiences.

Sports and Rehabilitation Centre

The Sports and Rehabilitation Centre at the Ziauddin University Family Park can be accessed by students to meet a comprehensive range of sporting, recreational, and rehabilitation needs.

The centre is open five days a week (unless

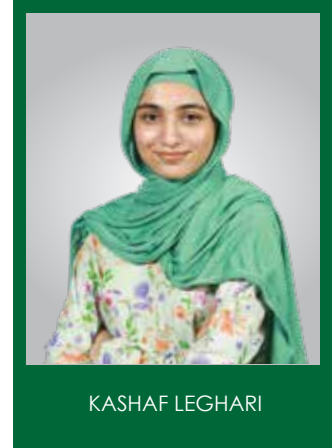

otherwise notified), Monday through Friday from 10:00 a.m. to 5:00 p.m.

Library

The ZU library offers extensive resources, cutting-edge services, and collaboration spaces to support students, faculty, and researchers in their academic endeavours.

The library consists of a vast and varied selection of books, magazines, journals, and reference resources spanning many academic fields. It has access to a broad selection of e-books, academic databases, online journals, and multimedia materials, supporting 24/7 learning.

COLLEGE OF PHARMACY (KARACHI CAMPUS)

■ VISION

To be a Pharmacy institution renowned for its excellence in academia and research, ethics, and innovation, along with professional services leading towards a knowledge-based economy.

■ MISSION

The mission is to provide sustainable solutions in education, research and practice through the exchange of ideas, inculcation of interpersonal skills and ethics among students, faculty and staff in order to meet the global pharmaceutical challenges.

■ HISTORY

Established in January 2005, the Faculty of Pharmacy & Pharmaceutical Sciences at Ziauddin University has been committed to academic excellence and professional development. The Faculty of Pharmacy and Pharmaceutical Sciences at Ziauddin University is dedicated to excellence in pharmaceutical education, research, and clinical practice. Recognized as one of the leading institutions in Karachi, the faculty comprises the College of Pharmacy, which includes five specialized departments: Pharmacy Practice, Pharmaceutics, Pharmaceutical Chemistry, Pharmacology, and Pharmacognosy, alongside the College of Pharmaceutical Sciences, which houses the Department of Cosmetic Sciences.

Accredited by the Higher Education Commission (HEC) and the Pharmacy Council of Pakistan (PCP), our PharmD programme follows an advanced curriculum aligned with international standards. As a member of the International Pharmaceutical Federation (FIP), we emphasize both the pharmaceutical industry and clinical pharmacy, ensuring our graduates well-prepared for roles in research, development, hospital pharmacy, and public health. Our commitment to academic excellence

fosters innovation, professional growth, and leadership in pharmaceutical sciences.

Today, we proudly celebrate the graduation of the seventeenth batch of the Pharm.D. programme. Additionally, a significant number of MPhil and PhD scholars are currently pursuing advanced research within the faculty, contributing to the expansion of pharmaceutical sciences. Our programmes are designed to equip students with the knowledge, skills, and ethical values required for exemplary pharmaceutical care. We strive to develop professionals who excel in medication expertise and actively contribute to society, both locally and globally. Upholding the core values of integrity, trust, honesty, and accountability, we remain dedicated to shaping future leaders in the field of Pharmacy and Pharmaceutical sciences.

■ PROGRAMMES OFFERED

- Doctor of Pharmacy (PharmD)
- Pharmacy Technician
- MPhil
- PhD

At the Faculty of Pharmacy & Pharmaceutical Sciences at Ziauddin University, we are committed to fostering research and professional excellence amongst our students.

Our programs—PharmD and the Pharmacy Technician Diploma—are designed to equip students with the knowledge and skills necessary to contribute meaningfully to the healthcare and pharmaceutical industries.

We emphasize the discovery and formulation of new molecules, the rational prescribing of medicines, and the safe and effective use of pharmaceuticals to ensure optimal therapeutic outcomes. Our faculty believes that pharmacists, cosmetic scientists, and pharmacy technicians play a crucial role in serving society by promoting health, wellness, and patient care.

COLLEGE OF PHARMACY (SUKKUR CAMPUS)

■ VISION

"To be a global leader in pharmacy education, research and practice with the ultimate goal of providing excellent, innovative patient care and drug development."

■ MISSION

"The mission is to achieve excellence in pharmacy education, research and practice through dissemination of knowledge and skills by qualified and experienced faculty. With an aim to prepare professionals who can fulfil the growing healthcare needs of the society and provide standard pharmaceutical care."

Ziauddin College of Pharmacy offers one of the best PharmD programme in Sukkur. Pharmacy and medicine are the backbone of the healthcare system, and our faculty has taken it upon themselves to ensure that we produce well-qualified, professionally trained, and highly competent pharmacists to perform specialized tasks in their specific areas of activity. Our programme is designed to cater to the needs of this system, such as drug design, synthesis, manufacturing, quality assurance, marketing, and supply systems, procurement, storage, distribution, and use of drugs in industry, hospital settings, or in community practice.

Our curriculum is approved by the Higher Education Commission (HEC) and the Pharmacy Council of Pakistan (PCP) and is based on the semester examination system.

Our institute is a member of the International Pharmaceutical Federation (FIP). We offer an accredited and recognized programme of the Pharmacy Council of Pakistan, which emphasizes the importance of the pharmaceutical industry and clinical pharmacy.

■ PROGRAMMES OFFERED

- Doctor of Pharmacy (PharmD)

■ FACILITIES/RESOURCES

Teaching and Learning Infrastructure:

ZFOPPS offers spacious, technology-enhanced classrooms designed to support effective lectures and academic presentations, along with state-of-the-art laboratory facilities developed in accordance with the HEC-approved curriculum. These resources promote experiential learning by enabling students to apply theoretical principles in practical settings, thereby enhancing clinical reasoning, professional competence, and skill development essential for contemporary pharmacy practice.

Learning Resource Centre:

To foster academic excellence, ZFOPPS has established a well-equipped Learning Resource Centre that provides students with access to a wide range of resources, including printed books, journals, periodicals, e-books, and e-journals. This hub of knowledge enhances students' learning experiences and encourages research and exploration in the field of Pharmacy and Pharmaceutical Sciences.

Industry Collaborations:

ZFOPPS has established partnerships with leading pharmaceutical organizations, including Swiss Pharma, Sigma Pharma, and Getz Pharma, to support hands-on training and enhance students' industry exposure.

Financial Assistance:

The University provides financial facilities to a limited number of candidates based on merit and individual needs. Each case is reviewed on an individual basis, and decisions are made by the Financial Aid Committee.

COLLEGE OF PHARMACEUTICAL SCIENCES

The College of Pharmaceutical Sciences (CPS) covers the Pharmaceutical, nutritional, cosmetics and aesthetic sciences needed for professional growth in the present era. The College of Pharmaceutical Sciences started its first batch in BS Cosmetic Science in 2023. The 4-year degree programme offers to contribute to the development and best utilization of the cosmetic products which could help to improve the overall health and beautification with great aesthetic excellence. The nutrition department of

College of Pharmaceutical Sciences is the next focusing target to be achieved with the aim to improve the overall health condition globally. The College of Pharmaceutical Sciences believes in a quality education system with project-based learning, research environment and practical exposure to the students.

■ PROGRAMMES OFFERED

- BS in Cosmetic Sciences

GOLD MEDALIST

Alhamdulillah! I am deeply grateful to share that I have been awarded a Gold Medal for my Pharm-D degree from Ziauddin University. This achievement is a blessing from Allah, and I sincerely say هَذَا مِنْ فَضْلِ رَبِّي this is by the grace of my Lord.

My journey at Ziauddin University has been truly transformative. I learned so much, met wonderful people, and had the privilege to study under dedicated teachers whose knowledge and guidance helped me grow both academically and personally. I am also grateful to the faculty, staff, and friends who supported me throughout this journey.

This success is not mine alone; it reflects the prayers, support, and belief of everyone around me. May Allah bless Ziauddin University and all those who were part of my journey with continued success and barakah, Ameen.

**FACULTY OF
NURSING &
MIDWIFERY**

Ziauddin Faculty of Nursing & Midwifery earlier known as School of Nursing was the first academic unit of Ziauddin University established in 1986 and it is recognized by Pakistan Nursing Council. In 2009, the School of Nursing was upgraded to the level of college and became Faculty of Nursing & Midwifery in 2020.

The Faculty offers various programs at undergraduate and graduate level to students coming from varied ethnic and socio-economic backgrounds of Pakistan. The reputation of Ziauddin Faculty of Nursing and Midwifery has grown nationally and internationally owing to the competency, critical thinking and knowledge of the graduates.

■ VISION

To be a catalyst for advancement of the nursing profession and healthcare system to achieve universal healthcare.

■ MISSION

The Faculty of Nursing and Midwifery supports the mission of Ziauddin University and is committed to the development of nursing and midwifery professions in Pakistan. It aims to

prepare its graduates for providing competent quality care to the population at all levels of healthcare.

The Faculty seeks to prepare nurses and midwives for exemplary leadership roles through the strength in its academic programs, research, and practice

To advance this mission, ZUFONAM will:

- Respond to identified needs for nursing and midwifery in Pakistan
- Prioritize teaching, research and practice using innovative teaching strategies and state-of-the-art technology
- Provide ethical, safe, and effective patient-centered care to advance its education and research mandate
- Develop collaboration and networking with other local, national, and international institutions
- Offer a program at par with international quality

■ PROGRAMMES OFFERED

- Bachelors of Science in Nursing (4-Year)
- Post RN BSN (2-Year)
- Master of Science in Nursing (2-Years)
- Doctor of Philosophy in Nursing PhD (3 Years)
- Diploma in Nurse Midwifery

GOLD MEDALIST

Choosing a Bachelor's in Nursing was never a decision I envisioned for myself. Yet here I am, four years later, realizing it was one of the most meaningful decisions of my life.

Coming from an area like Chitral where even basic first aid is an hour drive away, and after experiencing several personal losses, I was able to understand how critical, timely care can be. This reality gave my journey a deeper purpose.

My four years at Ziauddin University have been a journey of growth, resilience, and discovery. I am deeply grateful to my faculty members, whose constant support, innovative teaching methods, and out-of-the-box approaches helped us grow beyond powerpoint presentations into confident and capable individuals. Their dedication truly shaped who I am today. I would also like to express heartfelt gratitude to my family, friends and every individual at the University, whose unwavering support and belief in me made this journey possible and meaningful.

Today, I graduate with pride and gratitude. Also, as a nurse, I look forward to bringing positive change and helping reshape the mindset of nursing in Pakistan through breaking limitations, expanding opportunities, and broadening the horizons of this profession. I am committed to contributing beyond traditional boundaries and helping build a more progressive future for nursing.

Its truly said, "Hard work paves the way"

**FACULTY OF
EASTERN
MEDICINE
AND NATURAL
SCIENCES**

■ INTRODUCTION

The Faculty of Eastern Medicine and Natural Sciences (FEMNS) was established with the vision of promoting quality education in natural health and wellness. Since its inception, FEMNS has been committed to upholding the highest professional and ethical standards while providing its students with an exceptional educational experience.

FEMNS is focused on creating a culture of collaborative research and collective responsibility. FEMNS is staffed by experienced and dedicated professionals who are committed to helping students achieve their academic and professional goals.

FEMNS offers state-of-the-art facilities to support its teaching and research mission. These facilities include well-equipped classrooms, modern laboratories, and specialised clinics for natural health therapies. The Faculty also provides access to a variety of resources and support services to help students succeed, including academic advising, tutoring, and career services.

With a focus on outcome-based learning, FEMNS provides students with practical skills and knowledge that are highly transferable to

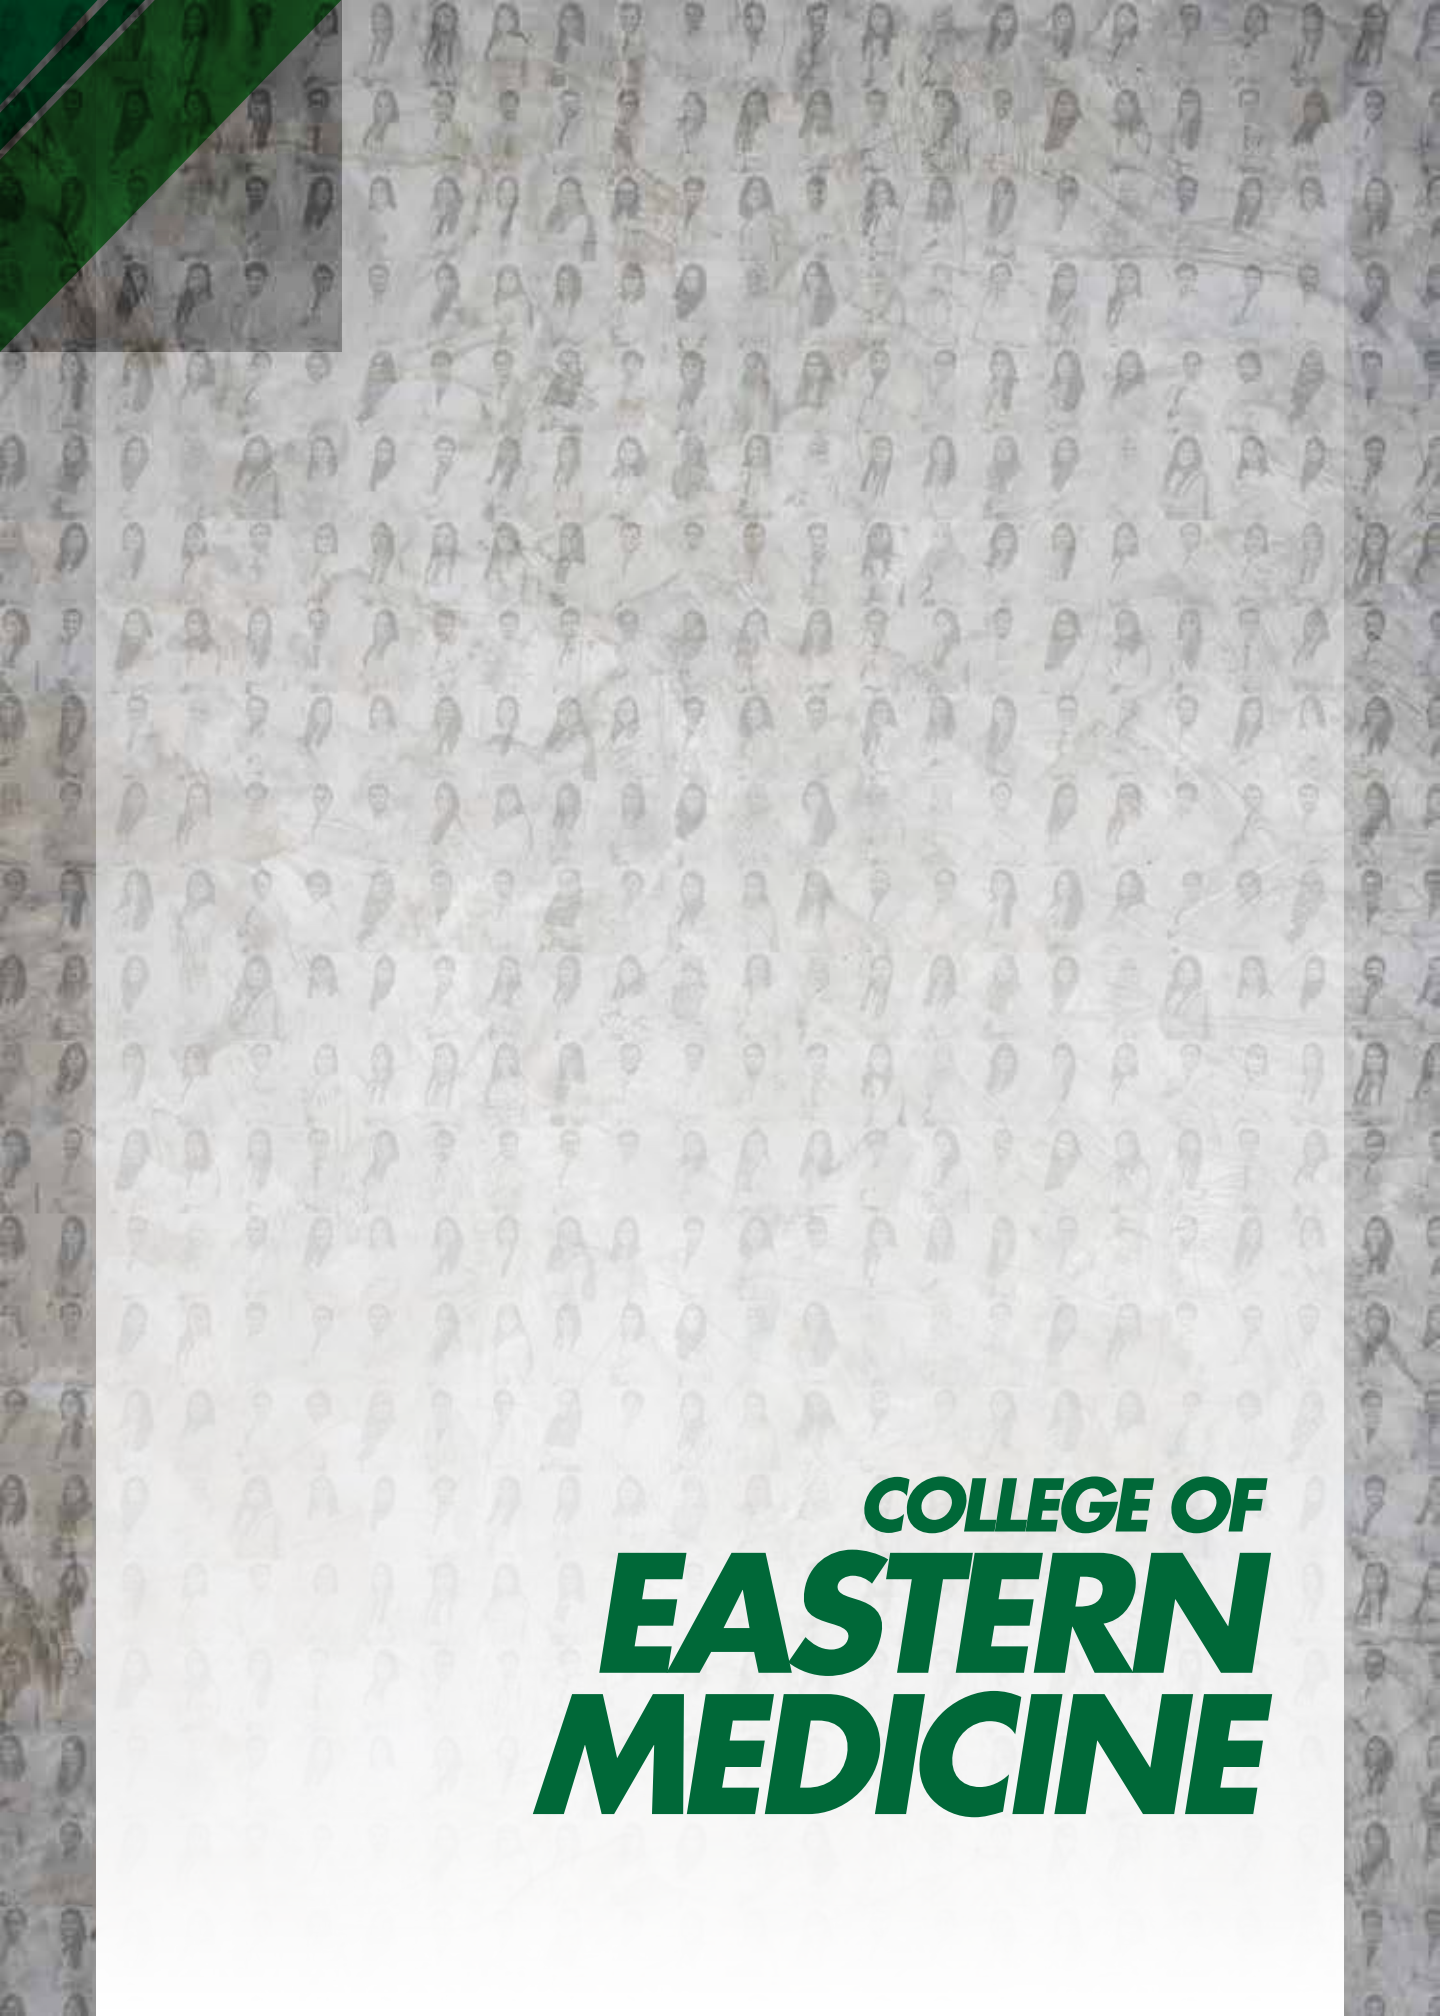

the workforce. The Faculty's curriculum emphasises clinical practice, research, diet therapy, and organic plant cultivation activities, all in service of the noble cause of promoting natural health and wellness.

■ VISION:

- To equip graduates of the faculty with the highest grade of knowledge and practical skills in their relevant field.
- To create a transformative impact on society through innovation in research, quality education, and professional development.

■ MISSION:

- Make 'Eastern Medicine' a reliable, effective, safe, and economical system of health care.
- Equip graduates with up-to-date knowledge of science and practical skills.
- Inculcate in graduates a sense of responsibility towards the quality of human life
- Make graduates realise the importance of sincerity, honesty, and integrity in every walk of life
- Adopt and practise the highest professional and ethical standards, leading to excellence in academics and research activities.

**COLLEGE OF
EASTERN
MEDICINE**

The College of Eastern Medicine at Ziauddin University is committed to advancing Eastern Medicine as a safe, effective, and accessible healthcare system in Pakistan. Our mission is to produce graduates equipped with modern knowledge while upholding the highest ethical and professional standards in clinical practice and research. We focus on holistic healthcare, evidence-based treatments, and community well-being, empowering students with the skills to innovate and lead in the field. We strive to integrate tradition with science for improved healthcare solutions.

■ VISION:

Eastern Medicine is recognised and made available to masses as an effective, economical and safe system of healthcare in Pakistan.

■ MISSION:

- Produce graduates equipped with modern, up-to-date knowledge of science and art of Eastern Medicine.
- Inculcate in our graduates a sense of responsibility towards quality of human life.
- Make our graduates realise the importance of sincerity, honesty and integrity in the practice of Eastern Medicine.
- Adopt and practise the highest professional and ethical standards, leading to excellence in Clinical practice and Research activities.
- Strengthen and promote excellence in education, research and the practice of Eastern Medicine.

GOLD MEDALIST

I recently graduated from the BEM program at Ziauddin University, and my five-year journey has been a phase of continuous growth, challenges, and self-discovery. Entering the university for the first time was both exciting and overwhelming. The academic pressure, clinical environment, and responsibility of being part of the healthcare field were intense. With time, I learned to adapt, manage my schedule effectively, and develop discipline. The structured curriculum and guidance from experienced faculty helped me build a strong foundation in basic and clinical medical sciences.

Alongside academics, I had the responsibility of serving as a Class Representative (CR), which became a defining part of my university experience. This role involved managing communication between students and faculty, coordinating schedules, conveying concerns, and handling various academic matters. Balancing these responsibilities with my own studies was challenging, but it strengthened my leadership, organizational, and problem-solving skills. Being a CR taught me patience, accountability, and the importance of teamwork in a professional environment.

As I progressed into the clinical years, my learning became more hands-on and meaningful. Rotations in OPDs and emergency settings exposed me to real patients, real emergencies, and real decision-making. These experiences enhanced my clinical judgment, communication skills, and confidence. Looking back now, completing my BEM degree feels like a significant personal and professional achievement. Ziauddin University has not only trained me to be a competent healthcare professional but has also shaped me into a responsible, confident individual prepared to move forward in my medical career.

“Five years, countless lessons, and one purpose—to serve with skill and compassion.”

GOVERNANCE**

■ INTRODUCTION

Over the course of 20 years, Ziauddin University has emerged as a diverse platform in academia. With an aspiration to broaden its academic horizons, Ziauddin University introduces the Faculty of Law, Politics, & Governance.

Under the dynamic leadership of Ms. Shaaista Sarki, the Dean Faculty of Law, Politics, & Governance aims to instill expert legal reasoning that responds to social phenomena and contributes to the development of various institutions. Ziauddin Faculty of Law, Politics & Governance is currently offering a four years LL.B. Degree programme, spread over eight semesters. The curriculum follows Federal HEC standards & Pakistan Bar Council standards.

■ VISION

To become a premier institution in Pakistan, producing highly skilled legal professionals equipped with expert legal reasoning skills and knowledge that respond to social phenomena and contribute to the development of various institutions. We aspire to be a leader in legal education, providing a curriculum that meets national and international standards, and producing graduates who will make a positive impact on society through their legal expertise and ethical values.

■ MISSION

We commit to excellence and humanity. Not just theory but practice.

■ HISTORY & OVERVIEW

The Faculty of Law, Politics & Governance at Ziauddin University was established in 2019 as part of the institution's ongoing commitment to providing high-quality education and addressing the evolving needs of society. Recognizing the growing demand for expertise in these critical fields, Ziauddin University launched this department to offer students a comprehensive understanding of legal frameworks, political systems, and

governance structures.

Since its inception, the faculty has been dedicated to nurturing future leaders and professionals in law and public policy. It provides a rigorous academic curriculum, fosters critical thinking, and prepares graduates to tackle contemporary challenges in law and governance. Through its innovative approach, the faculty has significantly contributed to the academic landscape and continues to expand its offerings to meet the dynamic demands of both global and local legal and political environments.

With a strong focus on equipping students with the essential skills and knowledge for successful legal careers, the Faculty of Law, Politics & Governance at Ziauddin University is poised to make a lasting impact on Pakistan's legal education landscape.

■ PROGRAMMES OFFERED

The Ziauddin Faculty of Law, Politics & Governance is currently offering the 4-year LL.B. programme as regulated by the Higher Education Commission of Pakistan and the Pakistan Bar Council. With plans for pioneering socio-legal and regulatory evolution, ZFLPG aims to launch an undergraduate degree in governance and policy-making, as well as an LL.M. programme by Fall 2026. Moreover, ZFLPG offers various certificate and postgraduate diploma programmes in law.

■ FACULTY

The faculty at the Ziauddin University Faculty of Law, Politics & Governance are almost exclusively foreign-qualified with local practice experience before the various courts, tribunals and quasi-judicial forums in Pakistan. With a diverse set of expertise, our faculty members include not only legal experts but also experts in warfare, international relations, sociology, economics, computer sciences, finance, banking, politics, policy-making and governance. Our experienced faculty provides a fulfilling multidisciplinary

academic experience to all our students.

■ ACADEMIC AND RESEARCH CENTRES

The Ziauddin Faculty of Law, Politics & Governance hosts a robust set of pertinent Centre's that engage in research, legislative assistance, social commentary and provide internship opportunities to our students. These Centre's include the Centre for Law & Technology, Centre for Human Rights, Centre for International and Constitutional Law, Centre for Access to Justice, the Centre for Mooting & Advocacy, and the Centre for Public Policy & Governance.

■ INDUSTRY LINKAGES & PARTNERSHIPS

ZFLPG has entered into strategic partnerships with national and international organizations. The Public Interest Litigation

Association of Pakistan (PILAP), the Research Society of International Law (RSIL), the Fleet Operators Association of Pakistan (FoAP), and the Council of Islamic Ideology (CII) are a few of our prominent national partners.

Internationally, we are linked with the International Association of Law Schools (IALS), the International Bar Association and Homo Digitalis, an EU-based NGO working on digital rights and freedoms. Through these linkages and partnerships,

ZFLPG provides a wide-range of dynamic experiences and opportunities for students and faculty members to hone their skills, increase the breadth and depth of their knowledge, and enter the professional arena with a pre-curated network of powerful institutions and individuals.

GOLD MEDALIST

My journey as a student has been a dynamic blend of challenges and triumphs. From the moment I entered the classroom, I understood that I was embarking on a journey that would test my limits and shape my future in ways I had never imagined. Though the road hasn't always been smooth, each hurdle has been a step toward growth, making the experience invaluable. The collaborative atmosphere fostered by the faculty further enriched my academic journey, allowing me to evolve both professionally and personally.

Receiving this gold medal is a deeply reflective moment—an acknowledgment not only of my hard work but also of the unwavering commitment, resilience, and personal transformation that have defined my path. I am deeply grateful for the guidance I've received at Ziauddin University and for my parents' unwavering support. As the saying goes, "The best way to predict the future is to create it."

**FACULTY OF
ENGINEERING,
SCIENCE,
TECHNOLOGY &
MANAGEMENT**

■ INTRODUCTION:

The Faculty of Engineering, Science, Technology & Management (ZUFESTM) at Ziauddin University offers a diverse range of educational programmes. Initially established as Ziauddin College of Biomedical Engineering (ZCBME) in 2010, its remarkable success and growing market demand led to its expansion into a multidisciplinary faculty.

ZUFESTM aspires to be more than just an academic unit; it aims to foster a contributing community where faculty, students, and staff are motivated, ambitious, and dedicated to continuous growth. The faculty strives to build strong relationships with students, encouraging future alumni to actively support and drive the development of their alma mater.

Recognising that an institution's greatest strength lies in its human resources, ZUFESTM prioritises capacity building by ensuring the professional growth of its existing faculty while also attracting highly qualified individuals to join its academic community. The dedicated faculty is committed to supporting Ziauddin University's vision and mission through innovative teaching methods, integrating interactive learning tools and case-based pedagogy. A strong emphasis is placed on research that serves a greater purpose than mere publication, ensuring responsiveness to social challenges and emerging opportunities.

With a forward-thinking approach, ZUFESTM is poised to emerge as a leading research and academic institution, shaping the future of engineering, science, technology, and management education.

**COLLEGE OF
ENGINEERING &
TECHNOLOGY**

■ FACULTY

The faculty of College of Engineering, and Technology at ZUFESTM, Ziauddin University offers a diverse range of educational programs. The dedicated faculty is committed to supporting Ziauddin University's vision and mission through innovative teaching methods, integrating interactive learning tools and case-based pedagogy. A strong emphasis is placed on research that serves a greater purpose than mere publication, ensuring responsiveness to social challenges and emerging opportunities.

■ VISION

Exploring uncharted waters of knowledge to make the world a better place to live.

■ MISSION

The faculty mission is to acquire, promote, develop and disseminate knowledge of engineering, sciences, technology, management, and its application to improve the quality of life and, in particular, to equip present and future generation with skills and attitudes to attain competence as professionals and to interact with industry

and community for sustainable development of humankind.

The College of Engineering & Technology at Ziauddin University is a hub of innovation, research, and excellence, offering cutting-edge programs across Biomedical, Electrical, and Civil Engineering. With state-of-the-art laboratories, a purpose-built campus at Education City, and access to Ziauddin Hospital for hands-on training, students gain a comprehensive learning experience. Programs range from undergraduate to Ph.D. levels, integrating modern technologies like AI, IoT, and robotics. Accredited by the Pakistan Engineering Council, the college emphasizes industry collaboration, research excellence, and career-focused education. Financial assistance, expert PhD faculty, and an active IEEE chapter further enhance student opportunities and growth. The College of Engineering and Technology comprises of three Departments;

- 1- Department of Biomedical Engineering
- 2- Department of Civil Engineering
- 3- Department of Electrical Engineering

DEPARTMENT OF BIOMEDICAL ENGINEERING

The Department of Biomedical Engineering at Ziauddin University prepares students for careers in medical technology, biomechanics, intelligent healthcare systems and food science. With state-of-the-art labs, expert faculty, and a cutting-edge curriculum integrating AI, robotics, and biomedical signal processing, it fosters innovation and industry collaboration. Located at the Education City campus with access to digital libraries, it offers a world-class learning experience, career support, and a strong research community further empower students to excel in the evolving field of biomedical engineering.

■ MISSION

The Biomedical Engineering Department aims to serve the society in the best manner

wherein the graduates will be equipped with required technical and interpersonal skills, motivated for research and lifelong learning; ethical values along with leadership and entrepreneurship qualities.

■ PROGRAMMES OFFERED

1. BE Biomedical Engineering
2. BS Biotechnology
3. BS Biomedical Engineering Technology
4. BS Food Science and Technology
5. BS Microbiology
6. MS Biomedical Engineering
7. MPhil Biotechnology
8. MPhil Food Science and Technology
9. PhD Biotechnology

GOLD MEDALIST

When I first stepped onto the Ziauddin University Education City campus, I had a note saved on my phone: "Be curious and ambitious in your projects. Spend your time learning." This mantra kept me grounded whenever I felt lost in the relentless race for grades. Choosing curiosity over grades taught me that true excellence lives beyond the coursework.

This Gold Medal is a proof that you can be an all-rounder while embracing diverse experiences. However, this achievement is not mine alone; it belongs equally to my family for their unwavering trust, my mentors for their guidance, and my teachers for their dedication.

What felt like a four-year rollercoaster passed in a heartbeat, anchored by friends who turned grueling assignments into late-night memories. From finding research gaps to finally bridging them, we grew into people ready to create real impact for our community and for Pakistan. I am deeply grateful to Almighty Allah and Ziauddin University for a journey that taught me the ultimate truth: while hard work gets you there, it is curiosity that takes you further.

GOLD MEDALIST

My four years at Ziauddin University have been a true rollercoaster, a journey of transformation that demanded every ounce of my tenacity. This achievement is first and foremost a tribute to my family and peers, whose unwavering belief served as my compass through every high and low. While embarking on this biotechnology program was a massive undertaking that tested my resolve, it is precisely that struggle that makes this moment so meaningful.

To graduate as the Gold Medalist is the humbling realization of a dream that once felt out of reach; it is the quiet evidence of restless nights and years of uncompromising dedication. I step forward now eager to meet the evolving demands of this field with the same passion I poured into every lab and lecture. Equipped with the skills honed here, I look forward to translating this knowledge into a lasting, positive impact on the world of biotechnology.

GOLD MEDALIST

I am grateful to Ziauddin University for the transformative four-year journey that culminated in my achievement of the gold medal in BS Food science and technology. The program has equipped me with comprehensive knowledge of food technology, safety standards, and innovative product development, enabling me to bridge scientific research with practical industry applications. I owe sincere thanks to the esteemed faculty whose visionary teaching, relentless mentorship, and inspiring guidance have been the cornerstone of my academic and personal growth. Their dedication has instilled in me the perseverance and excellence required to excel in the dynamic global food industry. I am honored to represent Ziauddin University as I move forward to contribute to advancements in food science and technology.

DEPARTMENT OF CIVIL ENGINEERING

The Department of Civil Engineering, established in 2017 under the Ziauddin University Faculty of Engineering, Science, Technology, and Management (ZUFESTM), aims to develop highly skilled engineers, technologists, and scientists capable of addressing the evolving demands of the industry. The Department of Civil Engineering currently offers two undergraduate and two postgraduate programs at the Education City Campus, Karachi, all of which are approved by the Higher Education Commission (HEC). The department takes pride in its accreditations from the Pakistan Engineering Council (PEC) and the National Technology Council (NTC), as well as the alignment of its undergraduate curriculum with HEC/NCRC standards. The Department of Civil Engineering is dedicated to providing state-of-the-art laboratory facilities, an interactive learning environment, and highly qualified faculty members. The department is well-equipped with specialized laboratories, including Surveying, Engineering

Mechanics, Fluid Mechanics & Hydraulics, Mechanics of Solids, Construction Engineering, Material Testing, Drawing Studio, and Computing Lab. A strong emphasis is placed on the practical application of knowledge, ensuring a seamless integration of theory and hands-on experience.

MISSION

To produce versatile professionals with diverse technical knowledge, leadership skills, and ethical awareness, driving innovation through sustainable solutions, fostering impactful careers through dynamic learning and professional excellence, while also contributing to socioeconomic advancement.

PROGRAMMES OFFERED

GOLD MEDALIST

My four-year journey at Ziauddin University has been truly transformative. Coming from Zarocha, Nushki, stepping onto the Education City Campus was a leap of faith. I arrived as a curious beginner and leave as a Gold Medalist, shaped by discipline, resilience, and growth. The Department of Civil Engineering became my second home, where dedicated faculty guided us beyond textbooks through practical learning and real-world exposure.

I developed a strong foundation in engineering principles, but more importantly, an “engineering mindset” grounded in problem-solving, ethics, and responsibility. This journey taught me that excellence is built through consistency and perseverance. As I approach convocation, I remain deeply grateful to my parents and mentors. To my juniors: stay committed—the journey is challenging, but the reward is truly worthwhile.

DEPARTMENT OF ELECTRICAL ENGINEERING

The Department of Electrical Engineering, established in 2017 under the Ziauddin University Faculty of Engineering, Science, Technology, and Management (ZUFESTM), has the primary goal of producing high-quality scientists for research and development, as well as engineers and technologists equipped with the necessary skill set to meet market demands. Located at the North Nazimabad Campus in Karachi, the department offers three undergraduate and two postgraduate programs, all of which are approved by the Higher Education Commission (HEC). Furthermore, the department boasts state-of-the-art laboratories for both undergraduate and postgraduate students, along with research facilities, and is staffed by a highly qualified faculty with extensive industrial and academic experience in their respective areas of expertise.

■ MISSION

To impart quality education in electrical engineering technology and produce graduates that conduct research, develop technologies, and contribute to national and international scientific and socioeconomic growth.

■ PROGRAMMES OFFERED

1. BE in Electrical Engineering
2. BS Internet of Things
3. BS Computer Networks and Security
4. BS Robotics & Intelligent Systems
5. BS Electrical Engineering Technology
6. Associate Degree Computer Networks and Security
7. Associate Degree Robotics & Intelligent Systems
8. MS Electrical Engineering
9. PhD Electrical Engineering

GOLD MEDALIST

Joining Ziauddin University's Electrical Engineering program was one of the best decisions I've made. I still remember walking into the department on my first day, wondering if I had what it takes. Four years later, I'm leaving with my BE degree, a gold medal, and a clear sense of direction. The faculty here genuinely invest in their students. They don't just lecture from slides, they share real industry insights, challenge your thinking, and push you to build things that actually work. The labs gave me hands-on experience that textbooks simply can't provide. I worked on projects I was proud of, failed at some, learned from all of them. The gold medal was unexpected, to be honest. But looking back, it represents the late nights, the questions I asked, and the support I received when things got tough. Ziauddin University didn't just prepare me for a job, it prepared me to keep growing, whether that's here in Pakistan or somewhere across the globe. I'm grateful for the foundation this place gave me.

GOLD MEDALIST

Ziauddin University's BS Electrical Technology program didn't just teach me about circuits and systems; it rewired my entire approach to problem-solving. Over four intensive years, I evolved from a curious student into a confident technologist, armed with both theoretical mastery and practical expertise. The program's emphasis on real-world applications, through industry-standard labs and hands-on projects, bridged the gap between classroom concepts and professional demands. What truly set this experience apart was the faculty's investment in my growth. They didn't simply deliver lectures; they ignited curiosity, challenged assumptions, and celebrated every breakthrough no matter how small. This mentorship transformed complex electrical principles into tools I could wield with precision. Today, as I step into the professional arena, I carry more than a degree. I carry the ability to adapt, innovate, and lead. Ziauddin University has been the Launchpad for a career where I don't just follow industry standards, I aim to redefine them.

COLLEGE OF
COMPUTING AND
SOFTWARE
ENGINEERING

The Department of Computer Science and Software Engineering, initially established in 2017, aimed to provide quality computing education with industry-relevant skill sets. Recognizing the growing demand for advanced computing education, the department was elevated to the College of Computing and Software Engineering in 2024. This transformation reflects ZU's commitment to fostering innovation, research, and excellence in computing education, equipping students with the expertise required to excel in the evolving technological landscape.

The College of Computing and Software Engineering is dedicated to shaping the future of technology through innovative education and research. Offering cutting-edge programs in computer science, data science, cybersecurity, and software engineering, the college provides students with industry-relevant skills and hands-on experience. With well-equipped computing labs, high-performance software, and expert faculty, students are trained to excel in the rapidly evolving digital world. Facilities include specialized laboratories for programming, operating systems, and final-year projects, ensuring an immersive learning environment. Graduates emerge as tech leaders, ready to contribute to advancements in computing and software development.

■ VISION

Our Vision is to be recognized as Academic Leaders, Analyst, Experts and Innovators in the diverse and ever evolving disciplines of computing.

■ DEPARTMENTS

1) Department of Computer Science

The Department of Computer Science focuses on foundational and advanced computing concepts, computational theory, artificial intelligence, data science, and emerging technologies. It emphasizes analytical thinking, problem-solving, and

research-driven learning.

Programs Offered (HEC Approved):

- BS in Computer Science (BS CS)
- BS in Data Science (BS DS)
- MS in Computer Science (MS CS)
- PhD in Computer Science (PhD CS)

2) Department of Software Engineering

The Department of Software Engineering emphasizes the systematic design, development, testing, and maintenance of software systems. It blends theoretical knowledge with practical application to prepare students for professional software development careers.

Programs Offered (HEC Approved):

- BS in Software Engineering (BS SE)

3) Department of Information Technology

The Department of Information Technology focuses on applied computing, network systems, cybersecurity, and modern software technologies. It prepares students to meet industry demands through practical and technology-driven education.

Programs Offered (HEC Approved):

- BS in Cyber Security Technology
- BS in Software Engineering Technology

■ FACULTY

The College of Computing & Software Engineering comprises highly qualified and experienced faculty members who are academically accomplished and professionally trained in the latest trends and technologies. They actively engage in research, industry collaboration, and continuous professional development to ensure that students receive up-to-date knowledge aligned with global technological advancements. The faculty's commitment to mentorship, innovation, and experiential learning creates a dynamic and intellectually stimulating environment for students.

■ FACILITIES

Dedicated Lecture Rooms: Equipped with whiteboards, multimedia systems, internet connectivity, and air conditioning, ensuring a conducive learning environment.

Computing Lab: Features 32 workstations (Core i3, i5 – 3rd and 6th generations) with high-end software, internet access via LAN/-Wi-Fi, a scanner, a printing facility, and multimedia.

Operating System Lab: Houses five advanced workstations, supporting OS development, programming, and networking projects.

Final Year Project Lab: Provides specialized resources such as sensors, potentiometers,

HDMI-supported LCDs, and extension boards for hands-on project development. **Data Science Lab:** Offers high-performance computing clusters, cloud computing platforms, and software tools like Tableau, Excel, Python, and R for data analysis and machine learning.

We equip our students with a strong academic and research environment, supported by industry-standard technologies and experienced mentorship. This enables them to graduate as capable, industry-ready professionals, well prepared to contribute to and lead technological innovation

GOLD MEDALIST

Respected Chief Guest, faculty members, distinguished guests, parent and my fellow graduates,

Assalam o Alaikum

Alhamdulillah, my university journey has been a path of growth, learning, and self-discovery. From the very first semester to my final year, each phase shaped me both academically and personally.

During my degree in Software Engineering, I developed a strong interest in Software Quality Assurance, particularly through my Final Year Project titled "Software Test Case Writing Process Automation for Exhaustive Testing Using NLP Techniques." This project allowed me to explore how Natural Language Processing can automate test case generation, making software testing more efficient and reliable.

One of the proudest milestones of my journey was achieving a 3.92 GPA in my final semester along with an A grade in my FYP, reflecting consistent dedication and the invaluable support of my teachers.

Today, as I work in the QA field, I am grateful to apply my learning in real-world settings and continue growing every day.

I extend my heartfelt congratulations and best wishes to all graduating students for a successful and fulfilling career ahead.

COLLEGE OF
MANAGEMENT
SCIENCES

The College of Management Sciences is dedicated to shaping future business leaders, analysts, and financial experts who drive innovation and economic growth. Through a diverse range of programmes, the college fosters analytical thinking, strategic decision-making, and leadership skills. With state-of-the-art facilities, experienced faculty, and industry collaborations, students gain hands-on experience, preparing them for the dynamic corporate world. From business administration to applied sciences, each department equips students with specialized knowledge and practical expertise, ensuring they excel in managerial, financial, and analytical roles in global industries. The College of Management Sciences comprises of two

Departments;

- 1- Department of Business Administration
- 2- Department of Management Sciences

1- Department of Business Administration

The Department of Business Administration focuses on developing dynamic business professionals with a strong foundation in leadership, marketing, finance, and entrepreneurship. The BBA programs (4-year and 2-year) offer a comprehensive curriculum that nurtures strategic thinking and business acumen, while the MBA program refines managerial and leadership capabilities for professionals seeking career advancement. Graduates emerge with practical knowledge, problem-solving skills, and the ability to lead in competitive industries. With industry partnerships and experiential learning opportunities, the department bridges the gap between theory and practice, ensuring students are ready to thrive in corporate, entrepreneurial, and managerial roles.

Department of Management Sciences

The Department of Management Sciences cultivates future strategists and decision-makers through specialized programs in Management & Technology, Business Analytics, MS, and PhD in Management Sciences. With a curriculum integrating business intelligence, data-driven decision-making, and technological advancements, students develop expertise in

managing organizations in an evolving digital landscape. The BSM&T and BS Business Analytics programs equip graduates with interdisciplinary knowledge, while MS and PhD programs prepare scholars for research and leadership roles. Through innovative learning environments and cutting-edge technology, the department empowers students to excel in consulting, corporate leadership, and academia.

MISSION

To nurture transformative leaders, qualified management professionals, and innovative entrepreneurs to address local and global challenges through contemporary knowledge, research, skill and ethical practices, providing sustainable solutions to empower businesses, industry, and the community of Pakistan.

CORE VALUES

Integrity, Innovation, Excellence

FACULTY

The faculty of College of Management Sciences strives to build strong relationships with students, encouraging future alumni to actively support and drive the development of their alma matters.

Recognizing that an institution's greatest strength lies in its human resources, ZUFESTM prioritizes capacity building by ensuring the professional growth of its existing faculty while also attracting highly qualified individuals to join its academic community. The dedicated faculty is committed to supporting Ziauddin University's vision and mission

PROGRAMS OFFERED

The college of Management Sciences offered following programs

1. BBA (2 Years & 4 Years)
2. BS Accounting and Finance, (2 Years, 4 Years, 2 Years after ICAP CAF)
3. BS (Management & Technology) – 4 Years
4. MBA
5. MS (Management Sciences)
6. PhD (Management Sciences)

GOLD MEDALIST

Reflecting on my four-year journey at Ziauddin University, I am filled with gratitude for an experience defined by innovation and growth. This Gold Medal is not just my own; it is a tribute to my family's unwavering love and my professors' dedicated mentorship. The BBA program provided a rigorous foundation in management, marketing, and finance, led by a faculty that bridges the gap between academic theory and professional excellence. To my fellow students: stay resilient. Challenges are merely stepping stones to your destination. Believe in your vision, stay focused, and success will follow.

BEST GRADUATE

I am filled with profound gratitude for the mentors and peers who shaped my path. Graduating from Ziauddin University is an honor that represents not just academic success but the culmination of relentless dedication and perseverance. The BS (Management and Technology) program has uniquely prepared me to navigate the intersection of business strategy and digital innovation. I extend my deepest appreciation to our exceptional faculty; their visionary teaching and tireless mentorship have been the cornerstone of my growth. I am truly honored to have learned from such inspiring educators as I step forward to meet the evolving demands of the global business landscape
